FOREWORD

I am pleased to introduce the 2021 update to our model financial statements for government departments prepared under public benefit entity (PBE) Accounting Requirements for Tier 1 and Tier 2 entities. The model financial statements also include information on the disclosure concessions for Tier 2 government departments eligible to apply the reduced disclosure regime (RDR).

Audit New Zealand's model financial statements highlight our latest thinking on meeting financial reporting and legislative requirements, and providing essential information to users of financial statements.

Focus

These model financial statements have been updated to reflect the adoption of PBE IPSAS 39 *Employee Benefits*, PBE IFRS 9 *Financial Instruments*, and the Public Finance Amendment Act 2020.

The main changes to the model financial statements are explained on page 6.

The model financial statements have been prepared to help guide government departments to prepare financial statements that comply with the PBE Accounting Standards. The model financial statements might also assist in reducing the compliance costs of preparing PBE-compliant financial statements and contribute to an efficient financial statements audit.

The financial statements included in this model (including certain disclosure requirements of the Public Finance Act 1989 (PFA) and Treasury Instructions) are only part of what is required to be included in a government department's annual report.

These model financial statements can be downloaded from our website www.auditnz.parliament.nz.

Future updates

We will continue to update these model financial statements to reflect evolving good practice in presenting financial statements that meet the needs of users as well as any revised requirements from changes in accounting standards and legislation.

We welcome any feedback on the application of these model financial statements to government departments or any other comments that might help in future updates of the model financial statements. If you have any feedback or comments, please pass these to your Audit New Zealand Manager or Appointed Auditor.

Acknowledgements

I would like to thank the Audit New Zealand staff who have contributed to the development of these model financial statements.

Stephen Walker
Executive Director
July 2021

ABOUT THE MODEL FINANCIAL STATEMENTS

Objective

The objectives of these model financial statements are to guide government departments in preparing financial statements that comply with the Tier 1 or Tier 2 PBE Accounting Requirements, and to provide an insight into evolving good practice in preparing financial statements.

The model financial statements have been prepared using a fictitious government department, the Ministry of Public Accountability (the Ministry). The Ministry does not have any specified agency for which it is a host department or relevant department.

Application of materiality to note disclosures

The purpose of these model financial statements is to provide a comprehensive range of accounting policies and disclosures to help guide government departments in preparing financial statements that comply with the PBE Accounting Standards. Because of this, the model financial statements contain many note disclosures. Government departments might not need to include all of these notes in their financial statements.

When preparing financial statements, professional judgement needs to be applied in determining what note disclosures are material to users of financial statements.

The PBE Conceptual Framework provides the following guidance on materiality:

Information is material if its omission or misstatement could influence the discharge of accountability by the entity, or the decisions that users make on the basis of the entity's general-purpose financial reports prepared for that reporting period. Materiality depends on both the nature and amount of the item judged in the particular circumstances of each entity.

In some cases, assessing materiality of note disclosures is an on-balance judgement that requires discussion between the preparer and auditor. In making this judgement, key factors are the concepts of user needs and accountability, but it is also important that material information is not obscured by including too much information that is not important.

Tier 2 concessions

The model financial statements also identify by green highlighting those disclosures included in the model financial statements that are not required if an entity is able to apply the RDR. An entity may be able to apply additional disclosure concessions in preparing its financial statements that are not identified by the model financial statements, as the model financial statements do not include all possible disclosures required by the PBE Accounting Standards.

Main updates to the model financial statements

The table below explains the main updates to the model financial statements since they were previously published in 2017.

Page number	Note number	Description of update
11	-	Statement of responsibility - A new assertion has been added that in the Chief Executive's opinion the annual report fairly reflects the operations, progress, and the organisational health of the Ministry. This is a new requirement arising from the Public Finance Amendment Act 2020.
Ministry financial statements		
18		Statement of contingent liabilities and contingent assets – The Defined Benefit Plan Contributors Scheme disclosure has been moved to Note 3 Personnel costs.
20	Note 1	Reporting entity – Added the Public Service Act 2020 as a relevant legislation governing the Ministry's operations.
21	Note 1	Statement of accounting policies – The standards issued and not yet effective, and not early adopted, disclosure has been updated to discuss: <ul style="list-style-type: none"> • an amendment to PBE IPSAS 2 <i>Cash Flow Statement</i>; • PBE IPSAS 41 <i>Financial Instruments</i>; and • PBE FRS 48 <i>Service Performance Reporting</i>.
24	Note 3	Personnel costs – The disclosures about the Defined Benefit Plan Contributors Scheme have been updated for the adoption of PBE IPSAS 39.
28	Note 7	Receivables – The disclosures have been updated for the adoption of PBE IFRS 9.
40	Note 16	Employee entitlements – The accounting policies for short-term employee entitlements and long-term employee entitlements have been updated to reflect the amended short-term employee benefit definition of PBE IPSAS 39.
42	Note 17	Finance leases – Added the fair value of the finance leases.
46	Note 21A	Financial instrument categories – Replaced the loans and receivables category with financial assets measured at amortised cost. Added finance leases to the financial liabilities measured at amortised cost category.
50	Note 23	Impact of Covid-19 – This is a new note to explain the impact of Covid-19 on the Ministry. Government departments will need to ensure that their disclosure appropriately captures their specific facts and circumstances.
Non-Departmental Statements and Schedules		
51	-	Schedule of non-departmental revenue – The interest unwind on concessionary loans, and fines and penalties, are now presented separately.
56	Note 1	Statement of accounting policies – Added the following accounting policies: <ul style="list-style-type: none"> • presentation currency and rounding; • standards issued and not yet effective and not early adopted; and • cash and cash equivalents.

Page number	Note number	Description of update
58-61	<u>Note 2</u>	<p>Receivables – The accounting policies for public accountability research encouragement loans and fines and penalties have been separated.</p> <p>The accounting policy and disclosures for public accountability research encouragement loans have been updated for the adoption of PBE IFRS 9. The loans are now subsequently measured at fair value through surplus or deficit. They were previously subsequently measured at amortised cost.</p> <p>The accounting policy for fines and penalties has been updated to better reflect how statutory receivables are subsequently accounted for in practice.</p> <p>The disclosures for receivables have been expanded to explain the key assumptions used in measuring their carrying value, including a sensitivity analysis.</p>
62	<u>Note 4</u>	Financial instruments risk – The disclosures for credit risk have been updated for the adoption of PBE IFRS 9.
62	<u>Note 6</u>	Impact of Covid-19 – This is a new note to explain the impact of Covid-19 on the Ministry’s non-departmental statements and schedules. Government departments will need to ensure that their disclosure appropriately captures their specific facts and circumstances.

This 2021 update is the first government department model financial statements we have published since PBE IFRS 9 *Financial Instruments* and PBE IPSAS 39 *Employee Benefits* were adopted in the financial statements of the Government in 2019 and 2020 respectively. As first-time adoption was in prior years, these model financial statements do not include disclosures about the effect of these transitions.

Revenue Crown

Applying the PBE Accounting Standards for revenue to the funding for government departments under the PFA is challenging and open to different interpretations. There has previously been debate between the Office of the Auditor-General (OAG) and the Treasury on the appropriate accounting treatment of Revenue Crown.

The OAG position is that Revenue Crown should be recognised when the government department gains control over the resources to be transferred, with revenue based on the supplementary estimates of appropriations and any subsequent unconditional funding adjustments agreed prior to balance date. These model financial statements are based on the OAG position. Revenue Crown has been accounted for as non-exchange revenue, with no use or return conditions attached. This accounting treatment is used by most government departments.

Content

Included in the model financial statements are:

- a statement of responsibility;
- a statement of comprehensive revenue and expense;
- a statement of financial position;
- a statement of changes in equity;
- a statement of cash flows;
- a statement of commitments;
- a statement of contingent liabilities and contingent assets;

- a statement of accounting policies, including a statement of significant assumptions underlying the forecast financial statements;
- notes to the financial statements;
- non-departmental statements and schedules, accounting policies, and accompanying notes; and
- appropriation statements required by section 45A of the PFA.

The appropriation statements include:

- a statement of budgeted and actual expenses and capital expenditure incurred against appropriations;
- a statement of expenses and capital expenditure incurred without, or in excess of, appropriation or other authority;
- a statement of departmental capital injections; and
- a statement of departmental capital injections made without, or in excess of, authority.

The model financial statements do not include all the legislative requirements for a government department's annual report. In particular, these model financial statements do not include the following required by sections:

- 19C – Requirements for end-of-year performance information;
- 45(2)(a) – An assessment of the government department's operations (excluding operations on which any specified agency for which the department is a host or relevant department is required to report under Part 4 of the PFA);
- 45(2)(b) – An assessment of the government department's progress in relation to its strategic intentions;
- 45(2)(c) – Information about the government department's management of its organisational health and capability; and
- 45(2)(g) – Any other matters that to or affect the government department's operations that the department is required, had undertaken, or wishes to report on in its annual report.

Not all of the accounting policies and notes will apply to each government department. Although it is not practical for these model financial statements to cover all of the possible financial reporting issues that could arise in the central government sector, we have included a wide range of accounting policies and notes, including all those that occur commonly in the sector.

The model financial statements illustrate a possible financial statement format for a government department. For example, the statement of comprehensive revenue and expense has been prepared by classifying expenses based on the nature of the expense. Alternatively, expenses could be classified based on their function. This is just one example where there might be more than one way to disclose the information required.

While the model financial statements provide guidance on disclosure matters, they do not deal with the underlying accounting treatment. Government departments will need to make choices about the accounting policies and presentation options appropriate for their circumstances.

The model financial statements do not address all the possible recognition, measurement, and disclosure requirements of the PBE Accounting Standards. Government departments should not use the model financial statements as a substitute for referring to individual standards and interpretations applicable to their specific circumstances.

We have included references to specific standards in the left margin of the model financial statements, and a subject index for easy searching.

We have used colour to highlight:

The accounting policies (a blue background)

and

critical accounting estimates and judgements (an orange background)

from the other information contained in the notes.

We have included a hyperlink where there is a reference to a note to the financial statements.

PBE Accounting Standards not covered by the model financial statements

The model financial statements do not consider any recognition, measurement, or disclosure requirements of the following PBE Accounting Standards:

- PBE IPSAS 10 *Financial Reporting in Hyperinflationary Economies*;
- PBE IPSAS 11 *Construction Contracts*;
- PBE IPSAS 16 *Investment Property*;
- PBE IPSAS 22 *Disclosure of Information About the General Government Sector*;
- PBE IPSAS 26 *Impairment of Cash-Generating-Assets*;
- PBE IPSAS 27 *Agriculture*;
- PBE IPSAS 32 *Service Concession Arrangements: Grantor*;
- PBE IPSAS 34 *Separate Financial Statements*;
- PBE IPSAS 35 *Consolidated Financial Statements*;
- PBE IPSAS 36 *Investments in Associates and Joint Ventures*;
- PBE IPSAS 37 *Joint Arrangements*;
- PBE IPSAS 38 *Disclosure of Interests in Other Entities*;
- PBE IFRS 3 *Business Combinations*;
- PBE IAS 12 *Income Taxes*;
- PBE IAS 34 *Interim Financial Reporting*;
- PBE FRS 43 *Summary Financial Statements*; and
- PBE FRS 45 *Service Concession Arrangements: Operator*.

Standards and amendments issued after June 2021 are not included in the model financial statements.

Treasury Instructions

The model financial statements have been prepared on the basis of the 2018 Treasury Instructions. The 2018 Treasury Instructions are still relevant for the 2020/21 financial year.

Abbreviations used in the model financial statements

ACC	Accident Compensation Corporation	MCA	Multi-category appropriation

PFA s45(2)(f)

STATEMENT OF RESPONSIBILITY¹

PFA s45C(1)

I am responsible, as Chief Executive of the Ministry of Public Accountability (the Ministry), for:

- the preparation of the Ministry's financial statements, and statements of expenses and capital expenditure, and for the judgements expressed in them;
- having in place a system of internal control designed to provide reasonable assurance as to the integrity and reliability of financial reporting;
- ensuring that end-of-year performance information on each appropriation administered by the Ministry is provided in accordance with sections 19A to 19C of the Public Finance Act 1989, whether or not that information is included in this annual report; and
- the accuracy of any end-of-year performance information prepared by the Ministry, whether or not that information is included in the annual report.

In my opinion:

- the annual report fairly reflects the operations, progress, and the organisational health and capability of the Ministry;²
- the financial statements fairly reflect the financial position of the Ministry as at 30 June 2021 and its operations for the year ended on that date; and
- the forecast financial statements fairly reflect the forecast financial position of the Ministry as at 30 June 2022 and its operations for the year ending on that date.

PFA s45C(3)

[signed]

C E Tumuaki

Chief Executive

21 September 2021

¹ The statement of responsibility content for a specified agency differs from that of a government department. Section 45CA of the PFA specifies the content of the statement of responsibility for a specified agency.

² The model financial statements do not include information about the Ministry's operations, progress, and organisational health and capability. The statement of responsibility has included this assertion for completeness as required by section 45C(1)(aaa) of the PFA.

PBE IPSAS 1.98.1(c)	12,125	Total comprehensive revenue and expense		4,087	0

PBE IPSAS 1.148.1 Explanations of major variances against the original 2020/21 budget are provided in **Note 22**.¹¹

The accompanying notes form part of these financial statements.

- 3 Alternatively, a statement displaying components of the surplus or deficit (a statement of financial performance) directly followed by a second statement beginning with surplus or deficit and displaying components of other comprehensive revenue and expense (a statement of other comprehensive revenue and expense) can be presented.
- 4 Where there are discontinued operations, PBE IFRS 5.33(a) requires separate disclosure of the total post-tax gain or loss from discontinued operations and the post-tax gain or loss recognised on the measurement to fair value less costs to sell or on the disposal of the assets or disposal group(s) constituting the discontinued operation.
- 5 The statement of comprehensive revenue and expense has been prepared using the nature of expense classification. Alternatively, entities may choose to present expenses based on the function of expense. Tier 1 entities that classify expenses by function are required to disclose additional information on the nature of expenses, including depreciation and amortisation expense and employee benefits expense (PBE IPSAS 1.115).
- 6 PBE IPSAS 1.53 requires comparative information to be disclosed in respect of the previous year for all amounts reported in the financial statements. Comparative information shall also be included for narrative information when it is relevant to an understanding of the current year's financial statements.
- 7 Under section 45B(2)(b) of the PFA, the financial statements must include the forecast financial statements prepared at the start of the financial year. This will be the forecast financial statements published in the prior year annual report. This should be the government department's best estimate forecasts prepared to support the Main Estimates of Appropriations, rather than the appropriation (upper limit) numbers (where these are different).
- 8 Section 45(3) of the PFA requires the annual report of a government department to include forecast financial statements in respect of the financial year after the financial year to which the annual report relates. In these model financial statements, the forecast financial statements and associated information are integrated into the historical financial statements and have been labelled as being unaudited. An alternative approach would be to include the forecast financial statements and associated information as a separate section in the annual report that is outside the historical financial statements and label them as being unaudited.
- 9 PBE IPSAS 23.106(a) requires, either in the statement of financial position or the notes, that entities disclose the amount of revenue from non-exchange transactions by major classes, showing separately: (i) taxes, showing separately major classes of taxes; and (ii) transfers, showing separately major classes of transfer revenue. As the separate labelling of revenue as exchange or non-exchange in most cases would not be considered material, we have decided to not label revenue as exchange or non-exchange in the model financial statements. We have, however, separately disclosed the major classes of revenue streams in the financial statements.
- 10 For-profit entities are required to group items presented in other comprehensive revenue and expense on the basis of whether they are potentially reclassifiable to surplus or deficit in the future (reclassification adjustments). Although PBEs are not required to make this disclosure, we consider the disclosure to be good practice.
- 11 PBE IPSAS 1.148.1 requires an entity that has published general purpose prospective financial information for the period of the financial statements to present a comparison of the prospective financial information with the actual financial results being reported. Explanations for major variances shall be given.

Explanations of major variances against the original 2020/21 budget are provided in **Note 22**.

The accompanying notes form part of these financial statements.

¹² PBE IPSAS 1.88 requires in the statement of financial position that separate line items be presented for recoverables from non-exchange transactions, receivables from exchange transactions, taxes and transfers payable, and payables under exchange transactions. We consider that it will be rare that this analysis will provide material information. Therefore, we have chosen to focus on providing a meaningful breakdown in the notes to the financial statements. We also note that the illustrative financial statements in Appendix B of PBE IPSAS 1 do not separately disclose receivables and payables into exchange or non-exchange headings.

PBE IPSAS 2.54

The Ministry acquired equipment totalling \$232,000 (2020: \$nil) by means of finance leases during the year.

PBE IPSAS 1.148.1

Explanations of major variances against the original 2020/21 budget are provided in [Note 22](#).

The accompanying notes form part of these financial statements.

14 We consider it good practice to separately disclose cash outflows from payments to employees and cash outflows from payments to suppliers, although the amounts could be presented in aggregate.

15 We consider it good practice to separately disclose cash flows arising from the acquisition and disposal of property, plant, and equipment and intangible assets. Presenting these cash flows separately provides users of the financial statements with a clearer linkage between the property, plant, and equipment and intangible asset movement schedules and cash flows arising from acquisition and disposal.

MINISTRY OF PUBLIC ACCOUNTABILITY
STATEMENT OF CASH FLOWS FOR THE YEAR ENDED 30 JUNE 2021 (CONTINUED)

Reconciliation of net surplus to net cash flow from operating activities¹⁶

2020	2021
\$000	\$000
12,125 Net surplus	1,561
Add/(less) non-cash items	
11,752 Depreciation and amortisation expense	19,201
(201) Net gains on derivative financial instruments	(72)
212 Net foreign exchange losses/(gains)	20
11,763 Total non-cash items	19,149
Add/(less) items classified as investing or financing activities	
(390) Net (gains)/losses on disposal of property, plant, and equipment	(485)
(390) Total items classified as investing or financing activities	(485)
Add/(less) movements in statement of financial position items	
319 (Increase)/Decrease in receivables ¹⁷	1,302
(15) (Increase)/Decrease in prepayments	(20)
933 (Increase)/Decrease in inventories	115
(431) Increase/(Decrease) in payables and deferred revenue ¹⁸	(2,211)
(592) Increase/(Decrease) in provisions	(1,212)
225 Increase/(Decrease) in employee entitlements	(2,603)
439 Total net movement in statement of financial position items	(4,629)
23,937 Net cash flows from operating activities	15,596

The accompanying notes form part of these financial statements.

¹⁶ This reconciliation may be presented as part of the statement of cash flows or in the notes to the financial statements.

¹⁷ Any receivables for the sale of property, plant, and equipment will need to be excluded when calculating this movement.

¹⁸ Any payables for capital expenditure will need to be excluded when calculating this increase or decrease.

**MINISTRY OF PUBLIC ACCOUNTABILITY
STATEMENT OF COMMITMENTS AS AT 30 JUNE 2021**

Capital commitments

Capital commitments are the aggregate amount of capital expenditure contracted for the acquisition of property, plant, and equipment and intangible assets that have not been paid for or not recognised as a liability at balance date.

Treasury Instructions
2018 3.5.21

Cancellable capital commitments that have penalty or exit costs explicit in the agreement on exercising that option to cancel are reported below at the lower of the remaining contractual commitment and the value of those penalty or exit costs (that is, the minimum future payments).

Non-cancellable operating lease commitments

PBE IPSAS 13.44(d)

The Ministry leases property, plant, and equipment in the normal course of its business. The majority of these leases are for premises and photocopiers, which have a non-cancellable leasing period ranging from three to ten years.¹⁹

PBE IPSAS 13.44(d)(ii)

The Ministry's non-cancellable operating leases have varying terms, escalation clauses, and renewal rights.

PBE IPSAS 13.44(d)(iii)

There are no restrictions placed on the Ministry by any of its leasing arrangements.

PBE IPSAS 13.44(b)

The total of minimum future sublease payments expected to be received under non-cancellable subleases at balance date is \$25,432 (2020: \$25,875).²⁰

	2020		2021
	\$000		\$000
	Capital commitments		
PBE IPSAS 17.89(c)	755	Buildings ²¹	352
PBE IPSAS 17.89(c)	203	Motor vehicles	184
PBE IPSAS 31.121(e)	124	Intangible assets	151
	1,082	Total capital commitments	687
	Operating leases as lessee		
PBE IPSAS 13.44(a)	The future aggregate minimum lease payments to be paid under non-cancellable operating leases are as follows:		
PBE IPSAS 13.44(a)(i)	15,120	Not later than one year	11,340
PBE IPSAS 13.44(a)(ii)	60,480	Later than one year and not later than five years	45,360
PBE IPSAS 13.44(a)(iii)	52,920	Later than five years	28,350
	128,520	Total non-cancellable operating lease commitments	85,050
	129,602	Total commitments	85,737

The accompanying notes form part of these financial statements.

¹⁹ A general narrative can be provided when there are a number of operating leases.

²⁰ If an entity has material operating leases as a lessor, it must comply with the disclosure requirements of PBE IPSAS 13.69.

²¹ The amount of contractual commitments for the acquisition of property, plant, and equipment is required to be disclosed for each class of asset (PBE IPSAS 17.89(c)).

**MINISTRY OF PUBLIC ACCOUNTABILITY
STATEMENT OF CONTINGENT LIABILITIES AND CONTINGENT ASSETS
AS AT 30 JUNE 2021**

Unquantifiable contingent liabilities

Lawsuit

PBE IPSAS 19.100

The Ministry is vigorously defending a legal suit of an unspecified sum instituted by certain individuals against a staff member for libel. In the event of the Court finding in favour of the plaintiff, the Ministry believes that any damages awarded would be met by its insurers.

Quantifiable contingent liabilities

2020	2021
\$000	\$000
250 Legal proceedings and disputes	250
125 Personal grievances	115
375 Total quantifiable contingent liabilities	365

Legal proceedings and disputes

PBE IPSAS 19.100

Legal proceedings and disputes represent the amounts claimed by plaintiffs in relation to the performance of the Ministry's statutory role and estimated associated legal costs. The Ministry is currently disputing these claims.

Personal grievances

PBE IPSAS 19.100

Personal grievances represent amounts claimed by employees for personal grievances cases, which all relate to an alleged breach of contract with employees of the Ministry arising from the restructuring of the Ministry. The Ministry is currently disputing these claims.

Contingent assets

PBE IPSAS 19.105

The Ministry has no contingent assets (2020: \$nil).²²

The accompanying notes form part of these financial statements.

²² Where no contingent assets exist, we consider it good practice to state that fact.

1 Statement of accounting policies

REPORTING ENTITY

PBE IPSAS 1.150(a),(c),(d)	The Ministry of Public Accountability (the Ministry) is a government department as defined by section 5 of the Public Service Act 2020 and is domiciled and operates in New Zealand. The relevant legislation governing the Ministry's operations includes the Public Finance Act 1989 (PFA), Public Service Act 2020, and the Public Accountability Act 1998. ²³ The Ministry's ultimate parent is the New Zealand Crown. ²⁴
Good practice	In addition, the Ministry has reported on Crown activities and trust monies that it administers in the non-departmental statements and schedules on pages 47 to 57.
PBE IPSAS 1.150(b)	The Ministry's primary objective is to provide services to the New Zealand public [<i>Tier 1 entities shall disclose a description of the nature of the entity's operations and principal activities</i>]. The Ministry does not operate to make a financial return.
PBE IPSAS 1.28.2(c)	The Ministry has designated itself as a public benefit entity (PBE) for the purposes of complying with generally accepted accounting practice (GAAP).
PBE IPSAS 1.63(a)-(c)	The financial statements of the Ministry are for the year ended 30 June 2021 and were approved for issue by the Chief Executive on 21 September 2021.

PBE IPSAS 1.127(a) **BASIS OF PREPARATION**

Good practice PBE IPSAS 1 Appendix B	The financial statements have been prepared on a going concern basis, and the accounting policies have been applied consistently throughout the year. ²⁵
--------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------

Statement of compliance

PBE IPSAS 1.28.2(a), (b)	The financial statements of the Ministry have been prepared in accordance with the requirements of the PFA, which include the requirement to comply with GAAP, and Treasury Instructions.
PBE IPSAS 1.28, 28.2(b), 28.4(a)	The financial statements have been prepared in accordance with and comply with PBE Accounting Standards.
PBE IPSAS 1 RDR 28.1, RDR 28.3, 28.4(b)	<i>[Entities that report in accordance with the Tier 2 PBE accounting requirements (RDR) shall state "The financial statements have been prepared in accordance with and comply with PBE Standards RDR" and shall also disclose the criteria that establish them as eligible to report in accordance with the PBE Standards RDR. For example, "The department is eligible and has elected to apply the PBE Standards RDR because its expenses are less than \$30 million and it does not have public accountability as defined by XRB A1 Application of the Accounting Standards Framework."]</i> ²⁶

Presentation currency and rounding

PBE IPSAS 1.63(d),(e)	The financial statements are presented in New Zealand dollars (NZ dollars) and all values are rounded to the nearest thousand dollars (\$000), other than the related party transaction disclosures in Note 19 . The related party transaction disclosures are rounded to the nearest dollar.
-----------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Changes in accounting policies

PBE IPSAS 3.33,34	There have been no changes in the Ministry's accounting policies since the date of the last audited financial statements.
-------------------	---------------------------------------------------------------------------------------------------------------------------

23 Departments should refer to their own governing legislation (if any). The Public Accountability Act 1998 is a fictitious statute we have used to illustrate department specific governing legislation.

24 PBE IPSAS 1.150 requires the following information to be included in the financial statements, if not disclosed elsewhere in information published with the financial statements: domicile and legal form of the entity and the jurisdiction in which it operates, description of operations and principal activities, reference to the relevant legislation governing the entity's operations, and name of the controlling entity and ultimate controlling entity. These disclosures are not required by the RDR.

25 The going concern concept is assumed when preparing financial statements. If those responsible for preparing the financial statements are aware of conditions or events that cast doubt over the ability to continue as a going concern, those facts shall be disclosed. If the financial statements are not prepared on a going concern basis, that fact shall also be disclosed, together with the basis on which the financial statements are prepared and the reason why the entity is not regarded as a going concern (PBE IPSAS 1.38).

26 We consider that the reporting tier of a government department should be determined based on the government department's total expenses in the surplus or deficit. The amount of expenses recognised in the non-departmental statements and schedules is not relevant in determining the government department's reporting tier for its own financial statements.

1 Statement of accounting policies (continued)

PBE IPSAS 3.35,36

Standards issued and not yet effective and not early adopted

Standards and amendments, issued but not yet effective that have not been early adopted, and which are relevant to the Ministry are:

Amendment to PBE IPSAS 2 Cash Flow Statement

An amendment to PBE IPSAS 2 requires entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. This amendment is effective for the year ending 30 June, with early application permitted. This amendment will result in additional disclosures. The Ministry does not intend to early adopt the amendment.

PBE IPSAS 41 Financial instruments

PBE IPSAS 41 replaces PBE IFRS 9 *Financial Instruments* and is effective for the year ending 30 June 2023, with earlier adoption permitted. The Ministry has assessed that there will be little change as a result of adopting the new standard as the requirements are similar to those contained in PBE IFRS 9. The Ministry does not intend to early adopt the standard.

PBE FRS 48 Service Performance Reporting

PBE FRS 48 replaces the service performance reporting requirements of PBE IPSAS 1 *Presentation of Financial Statements* and is effective for the year ending 30 June 2023, with early adopted permitted. The Ministry has not yet determined how application of PBE FRS 48 will affect its statement of service performance. It does not plan to adopt the standard early.

PBE IPSAS 1.132

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES²⁷

Significant accounting policies are included in the notes to which they relate.

Significant accounting policies that do not relate to a specific note are outlined below.

PBE IPSAS 1.132(c)

Foreign currency transactions

PBE IPSAS 4.24,32

Foreign currency transactions (including those for which forward foreign exchange contracts are held) are translated into NZ\$ (the functional currency) using the spot exchange rate at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in surplus or deficit.

PBE IPSAS 2.57

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks, and other short-term highly liquid investments with original maturities of three months or less.

PBE IPSAS 23.106(d)

The Ministry is permitted to expend its cash and cash equivalents only within the scope and limits of its appropriations.

PBE IPSAS 1.132(c)

Goods and services tax

Treasury Instructions
2018 4.2.3

Items in the financial statements are stated exclusive of goods and services tax (GST), except for receivables and payables, which are stated on a GST-inclusive basis. Where GST is not recoverable as input tax, it is recognised as part of the related asset or expense.

The net amount of GST recoverable from, or payable to, the Inland Revenue (IR) is included as part of receivables or payables in the statement of financial position.

The net GST paid to or received from the IR, including the GST relating to investing and financing activities, is classified as an operating cash flow in the statement of cash flows.

Commitments and contingencies are disclosed exclusive of GST.

²⁷ Entities are required to disclose those accounting policies that are relevant to an understanding of the financial statements (PBE IPSAS 1.132(c)). The materiality of transactions should also be considered in deciding what accounting policies to disclose. In these model financial statements, we have chosen to disclose a comprehensive range of accounting policies. An entity might not need to disclose all the accounting policies included in these model financial statements if the transactions associated with the policy are immaterial.

1 Statement of accounting policies (continued)

Income tax²⁸

Good practice The Ministry is a public authority and consequently is exempt from income tax. Accordingly, no provision has been made for income tax.

Critical accounting estimates and assumptions²⁹

PBE IPSAS 1.140 In preparing these financial statements, estimates and assumptions have been made concerning the future. These estimates and assumptions might differ from the subsequent actual results. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are in respect of:

- Estimating the fair value of land and buildings – refer to [Note 11](#).
- Assessing the useful lives of software – refer to [Note 12](#).
- Measuring long service leave and retirement gratuities – refer to [Note 16](#).

PBE IPSAS 1.137

Critical judgements in applying accounting policies

Management has exercised the following critical judgements in applying accounting policies:

- Classification of leases – refer to [Note 17](#).

Budget and forecast figures

Basis of the budget and forecast figures

PBE FRS 42.48

The 2021 budget figures are for the year ended 30 June 2021 and were published in the 2019/20 annual report. They are consistent with the Ministry's best estimate financial forecast information submitted to the Treasury for the Budget Economic and Fiscal Update (BEFU) for the year ending 2020/21.

The 2022 forecast figures are for the year ending 30 June 2022, which are consistent with the best estimate financial forecast information submitted to the Treasury for the BEFU for the year ending 2021/22.

The forecast financial statements have been prepared as required by the PFA to communicate forecast financial information for accountability purposes.

PBE FRS 42.60

The budget and forecast figures are unaudited and have been prepared using the accounting policies adopted in preparing these financial statements.

PBE FRS 42.10

The 30 June 2022 forecast figures have been prepared in accordance with and comply with PBE FRS 42. *Prospective Financial Statements*.

PBE FRS 42.65(a),(b)

The forecast financial statements were approved for issue by the Chief Executive on 21 April 2021.³⁰

The Chief Executive is responsible for the forecast financial statements, including the appropriateness of the assumptions underlying them and all other required disclosures.

PBE FRS 42.65(d)

Although the Ministry regularly updates its forecasts, updated forecast financial statements for the year ending 30 June 2022 will not be published.

PBE FRS 42.49-58
PFA s45BA(2)(a)³¹

Significant assumptions used in preparing the forecast financial information

PBE FRS 42.49-58

The forecast figures contained in these financial statements reflect the Ministry's purpose and activities and are based on a number of assumptions on what might occur during the 2021/22 year. The forecast figures have been compiled on the basis of existing government policies and ministerial expectations at the time the Main Estimates were finalised.

28 Although PBE IAS 12 *Income Taxes* applies only to entities subject to income tax, it is good practice for government departments to include this policy as a positive statement on their tax-exempt status.

29 The examples provided are not intended to be exhaustive. Government departments will need to consider their own circumstances to ensure that the disclosures for PBE IPSAS 1.137 and 140 are relevant and complete.

30 The approved for issue date is the date the statement of responsibility to the Treasury on the forecast financial statements was signed (or a later date if any late changes were made to the final numbers used for BEFU).

31 The forecast financial statements must include any other information or explanations needed to fairly reflect the forecast financial operations and financial position of the department (s45BA(b) of the PFA).

1 Statement of accounting policies (continued)

The main assumptions,³² which were adopted as at 21 April 2021, were as follows:

- The Ministry's activities and output expectations will remain substantially the same as the previous year focusing on the Government's priorities.
- Personnel costs were based on 1600 full-time equivalent staff, which considers staff turnover.
- Operating costs were based on historical experience and other factors that are believed to be reasonable in the circumstances and are the Ministry's best estimate of future costs that will be incurred. Remuneration rates are based on current wages and salary costs, adjusted for anticipated remuneration changes.
- Land and buildings are not revalued.
- Estimated year-end information for 2020/21 was used as the opening position for the 2021/22 forecasts.

PBE FRS 42.59

The actual financial results achieved for 30 June 2022 are likely to vary from the forecast information presented, and the variations might be material.

Treasury guidance on forecast financial statements

Since the approval of the forecasts, the only significant change or event that would have a material effect on the forecasts has been the revaluation of land and buildings at 30 June 2021. This resulted in a revaluation increase of approximately 3%. Although it is difficult to reliably forecast land and building values, it is likely that the valuation increase to 30 June 2021 will result in land and building values at 30 June 2022 being higher than in the existing 2022 forecast figures.³³

PBE IPSAS 1.108

2 Revenue

PBE IPSAS 23.107(a),(b)

Accounting policy

PBE IPSAS 9.39(a)

The specific accounting policies for significant revenue items are explained below:

Revenue Crown³⁴

Revenue from the Crown is measured based on the Ministry's funding entitlement for the reporting period. The funding entitlement is established by Parliament when it passes the Appropriation Acts for the financial year. The amount of revenue recognised takes into account any amendments to appropriations approved in the Appropriation (Supplementary Estimates) Act for the year and certain other unconditional funding adjustments formally approved prior to balance date.

There are no conditions attached to the funding from the Crown. However, the Ministry can incur expenses only within the scope and limits of its appropriations.

The fair value of Revenue Crown has been determined to be equivalent to the funding entitlement.

Statutory levies

Revenue from statutory levies is recognised as revenue when the obligation to pay the levy is incurred. Although there are restrictions on how levy funding may be spent, there are no conditions attached to the levies that could readily give rise to obligations to return levies to levy payers.

Sale of publications

The sale of publications is recognised when the product is sold to the customer. The recorded revenue is the gross amount of the sale.

Application fees

Revenue from application fees is recognised to the extent that the application has been processed by the Ministry at balance date.

32 Government departments will need to tailor the significant assumptions to reflect those actually used in preparing their financial forecasts. Treasury Instructions 2018 section 4.5 includes forecasting policies to be followed in preparing forecasts.

33 If there have been significant events or changes that would have a material effect on the BEFU forecast, information should be disclosed about these circumstances. For example, a narrative would be disclosed in relation to significant yearend adjustments, significant accounting policy changes, major changes in approved funding, or major changes in planned level of activity.

34 Further context about the accounting for Revenue Crown is provided on page 5 of the model financial statements.

2 Revenue (continued)

Rental revenue

Rental revenue under an operating sublease is recognised as revenue on a straight-line basis over the lease term.

Breakdown of other revenue and further information

	2020 \$000	2021 \$000
	888	1,047
	147	142
	230	158
	324	367
PBE IPSAS 1.51, 1.107(c)	431	485
PBE IPSAS 30.24(a)(i)	104	72
	168	298
	2,292	2,569
	Total other revenue	2,569

Asset disposals

PBE IFRS 5.41 During the year, the Ministry disposed of motor vehicles that reached a pre-determined mileage. The net gain on motor vehicle disposals was \$86,000 (2020: \$431,000). A property at 214 Roundabout Drive was disposed of during December 2020 and a gain of \$399,000 was recognised. This property was identified as surplus to the Ministry's requirements and approval was obtained to dispose of the property.³⁵

3 Personnel costs

Accounting policy

Salaries and wages

Salaries and wages are recognised as an expense as employees provide services.

Superannuation schemes

PBE IPSAS 39.53

Defined contribution schemes

Employee contributions to the State Sector Retirement Savings Scheme, KiwiSaver, and the Government Superannuation Fund³⁶ are accounted for as defined contribution superannuation schemes and are expensed in the surplus or deficit as incurred.

PBE IPSAS 39.150

Defined benefit scheme

The Ministry makes contributions to the Defined Benefit Plan (DBP) Contributors Scheme (the scheme), which is managed by the Board of Trustees of the National Provident Fund. The scheme is a multiemployer defined benefit scheme.

PBE IPSAS 39.34
PBE IPSAS 39.150

Insufficient information is available to use defined benefit accounting, as it is not possible to determine from the terms of the scheme the extent to which the surplus or deficit in the plan will affect future contributions by individual employers, as there is no prescribed basis for allocation. The scheme is therefore accounted for as a defined contribution scheme.

³⁵ If there are a number of asset sales, a general narrative can be provided.

³⁶ The schemes listed are not exhaustive. Government departments may make contributions to other defined contribution plans, including defined benefit plans that are accounted for as a defined contribution plan.

3 Personnel costs (continued)

Breakdown of personnel costs and further information

	2020 \$000		2021 \$000
	123,656	Salaries and wages	142,776
PBE IPSAS 39.55	1,124	Defined contribution plan employer contributions	1,204
	359	Increase/(decrease) in employee entitlements	(2,603)
	242	Other	229
	125,381	Total personnel costs	141,606

Further information

Defined benefit scheme

PBE IPSAS 39.150 The funding arrangements for the scheme are governed by section 44 of the National Provident Fund Restructuring Act 1990 and by a Trust Deed. This Act requires that any increase or decrease to the employer contribution rate should result in contributions being at a level which, on reasonable assumptions, is likely to achieve neither a surplus nor a deficit in the trust fund of the DBP scheme at the time that the last contributor to that scheme ceases to so contribute. The Trust Deed specifies that immediately before the scheme is wound up, the assets and the interests of all contributors in the scheme will be transferred to the DBP Annuitants Scheme. Employers have no right to withdraw from the plan.

In practice, at present, a single contribution rate is determined for all employers, which is expressed as a multiple of the contributions of members of the scheme who are employees of that employer. The current employer contribution rate is three times contributor contributions, inclusive of Employer Contribution Withholding Tax. The Actuary has recommended a stepped approach to changing the employer contribution rate, as follows:

- 1 April 2021 - 31 March 2022: Four times contributor contributions; and
- From 1 April 2022: Five times contributor contributions

There is no minimum funding requirement.

PBE IPSAS 39 RDR 150.1 As at 31 March 2020,³⁷ the scheme had a past service deficit of \$2.8 million or 4.1% of the liabilities (exclusive of Employer Superannuation Contribution Tax (2019: \$1.80 million or 1.9% of the liabilities). This deficit was calculated using a discount rate equal to the expected return on assets, but otherwise the assumptions and methodology were consistent with the requirements of PBE IPSAS 39 *Employee Benefits*.

PBE IPSAS 39.150(d)(v) The scheme had 110 members at 31 March 2020. Nine of these are employees of the Ministry.

If the other participating employers ceased to participate in the scheme, the Ministry could be responsible for any deficit of the scheme. Similarly, if a number of employers ceased to participate in the scheme, the Ministry could be responsible for an increased share of any deficit

4 Capital charge

PBE IPSAS 1.132(c) Accounting policy

The capital charge is recognised as an expense in the financial year to which the charge relates.

Good practice

Further information

Treasury Instructions 2018 4.3.4 The Ministry pays a capital charge to the Crown on its equity (adjusted for memorandum accounts) as at 30 June and 31 December each year. The capital charge rate for the year ended 30 June 2021 was 5% (2020: 6%).

³⁷ The actual information as at 31 March 2021 should be disclosed, if available from NPF's website. The information in this disclosure is based on the actual 31 March 2020 information provided by NPF.

PBE IPSAS 1.127(c)
PBE IPSAS 1.132(c)
PBE IPSAS 5.17,40(a)

5 Finance costs

Accounting policy

Borrowing costs are recognised as an expense in the financial year in which they are incurred.

Breakdown of finance costs

	2020 \$000		2021 \$000
PBE IPSAS 30.24(b)	72	Interest on finance leases	73
PBE IPSAS 19.70	182	Discount unwind on provisions (refer to Note 15)	191
	254	Total finance costs	264

PBE IPSAS 1.106

6 Other expenses

PBE IPSAS 1.132(c)

Accounting policy

Operating leases

PBE IPSAS 13.8

An operating lease is a lease that does not transfer substantially all the risks and rewards incidental to ownership of an asset.

PBE IPSAS 13.42

Lease payments under an operating lease are recognised as an expense on a straight-line basis over the lease term.

PBE IPSAS 13 A5

Lease incentives received are recognised in the surplus or deficit as a reduction of rental expense over the lease term.

PBE IPSAS 1.132(c)

Grant expenditure

PBE IPSAS 19 IG18.1

The Ministry's grants awarded have no substantive conditions attached.³⁸ Non-discretionary grants are those grants awarded if the grant application meets the specified criteria. They are recognised as an expense when an application that meets the specified criteria for the grant has been received.

PBE IPSAS 19 IG18.2

Discretionary grants are those grants where the Ministry has no obligation to award on receipt of the grant application. They are recognised as an expense when approved by the Grants Approvals Committee and the approval has been communicated to the applicant.

Other expenses

Other expenses are recognised as goods and services are received.

Breakdown of other expenses and further information³⁹

	Actual 2020 \$000		Actual 2021 \$000	Unaudited budget 2021 \$000	Unaudited forecast 2022 \$000
		Fees to auditor:

	65,959	Total other expenses	61,380	55,240	62,370

PBE IPSAS 1.116.2 The fees for other services from the auditor were for an assurance engagement over the project management of the Ministry's FMIS development project.

PBE IPSAS 1.94(b)

7 Receivables

PBE IPSAS 30.25

Accounting policy

PBE IFRS 9.5.1.1, 5.5.15

Short-term receivables are recorded at the amount due, less an allowance for credit losses. The Ministry applies the simplified expected credit loss model of recognising lifetime expected credit losses for receivables.

PBE IPSAS 30.42F(c)

In measuring expected credit losses, short-term receivables have been assessed on a collective basis as they possess shared credit risk characteristics. They have been grouped based on the days past due.

PBE IPSAS 30.42F(e)

Short-term receivables are written off when there is no reasonable expectations of recovery. Indicators that there is no reasonable expectations of recovery include the debtor being in liquidation or the receivable being more than one year overdue.

⁴¹ Disclose only if there has been a net loss on disposal in either the comparative year or the current reporting period.

7 Receivables (continued)

Breakdown of receivables and further information

	2020 \$000		2021 \$000		
	5,470	Gross receivables	4,453		
	(254)	Less: allowance for credit losses	(539)		
	5,216	Net receivables	3,914		
		<i>Receivables consist of</i>			
PBE IPSAS 1.88(h)	4,884	Receivables from the sale of publications at full cost recovery and deposits (exchange transactions)	3,537		
PBE IPSAS 1.88(g)	332	Receivables from statutory levies, application fees (subsidised), and GST (non-exchange transactions)	377		
	5,216	Total receivables	3,914		
PBE IPSAS 30.42G(a),(b)	The expected credit loss rates for receivables at 30 June 2021 and 30 June 2020 are based on the payment profile of revenue on credit over the prior two years at the measurement date and the corresponding historical credit losses experienced for that period. The historical loss rates are adjusted for current and forward-looking macroeconomic factors that might affect the recoverability of receivables. Given the short period of credit risk exposure, the effect of macroeconomic factors is not considered significant.				
PBE IPSAS 30.42G(c)	There have been no changes during the reporting period in the estimation techniques or significant assumptions used in measuring the loss allowance.				
	The allowance for credit losses is determined as follows:				
PBE IPSAS 30.42N PBE IPSAS 30.IG22D	30 June 2021				
		Receivable days past due			
	Current	More than 30 days	More than 60 days	More than 90 days	Total
PBE IPSAS 30.42G(a)	Expected credit loss rate	6.8%	26.9%	36.9%	42.1%
	Gross carrying amount (\$000)	3,674	156	314	309
	Lifetime expected credit loss (\$000)	251	42	116	130
					539
PBE IPSAS 30.42N	30 June 2020				
		Receivable days past due			
	Current	More than 30 days	More than 60 days	More than 90 days	Total
PBE IPSAS 30.42G(a)	Expected credit loss rate	1.4%	24.3%	35.2%	39.7%
	Gross carrying amount (\$000)	4,948	122	121	279
	Lifetime expected credit loss (\$000)	71	30	43	111

	2020	2021
	\$000	\$000
PBE IPSAS 30.42H	229 Balance as at 1 July	254
	178 Increase in loss allowance made during the year (refer to Note 6)	486
PBE IPSAS 30.42I(c)	(153) Receivables written off during the year	(201)
	254 Balance as at 30 June	539

8 Derivative financial instruments

PBE IPSAS 30.25

Accounting policy

Derivative financial instruments are used to manage exposure to foreign exchange risk arising from the Ministry's operational activities. The Ministry does not hold or issue derivative financial instruments for trading purposes. The Ministry has not adopted hedge accounting.

PBE IFRS
9.5.1.1, 5.2.1(c),
4.2.1(a)

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value at each balance date with the resulting gain or loss recognised in the surplus or deficit.

PBE IPSAS 1.76, 80

Foreign exchange derivatives are classified as current if the contract is due for settlement within 12 months of balance date. Otherwise, the full fair value of foreign exchange derivatives is classified as non-current.

Further information

PBE IPSAS 30.41(a)

The total notional principal amount outstanding for forward foreign exchange contracts at 30 June 2021 is NZ\$1.8 million (2020: NZ\$925,000). The contracts consist of the purchase of AUS\$450,000 (2020: AUS\$nil) and US\$900,000 (2020: US\$650,000).

PBE IPSAS 30.31

The fair values of forward foreign exchange contracts have been determined using a discounted cash flows valuation technique based on quoted market prices. The inputs into the valuation model are from independently sourced market parameters such as currency rates. Most market parameters are implied from forward foreign exchange contract prices.

9 Inventories

PBE IPSAS 12.47(b)

PBE IPSAS 12.47(a)

Accounting policy

Inventories are held for distribution or for use in the provision of goods and services. The measurement of inventories depends on whether the inventories are held for commercial or non-commercial (distribution at no charge or for a nominal charge) distribution or use. Inventories are measured as follows:

- Commercial: measured at the lower of cost and net realisable value.
- Non-commercial: measured at cost, adjusted for any loss of service potential.

PBE IPSAS 12.17, 35

Cost is allocated using the first-in-first-out (FIFO) method, which assumes the inventories that were purchased first are distributed or used first.

PBE IPSAS 12.16

Inventories acquired through non-exchange transactions are measured at fair value at the date of acquisition.

PBE IPSAS 12.44

Any write-down from cost to net realisable value or for the loss of service potential or from cost to net realisable value is recognised in surplus or deficit in the year of the write-down.

PBE IPSAS 12.47(b)

9 Inventories (continued)

Breakdown of inventories and further information

2020 \$000	2021 \$000
Held for distribution inventories	
324 Emergency stock	298
124 Inventories held for use in the provision of goods and services	137
Commercial inventories	
408 Publications held for sale	306
856 Total inventories	741

PBE IPSAS 12.47(e),(f) The write-down of inventories during the year was \$26,000 (2020: \$nil). There have been no reversals of write-downs (2020: \$nil).⁴²

PBE IPSAS 12.47(h) As at 30 June 2021, no inventories are pledged as security for liabilities (2020: \$nil). However, some inventories are subject to retention of title clauses.

10 Non-current assets held for sale

PBE IPSAS 1.132(c)

Accounting policy

PBE IFRS 5.6,15

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. Non-current assets held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

PBE IFRS 5.20

Any impairment losses for write-downs of non-current assets held for sale are recognised in surplus or deficit.

PBE IFRS 5.21

Any increases in fair value (less costs to sell) are recognised up to the level of any impairment losses that have been previously recognised.

PBE IFRS 5.25

Non-current assets held for sale (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale.

Breakdown of non-current assets held for sale and further information

2020 \$000	2021 \$000
Non-current assets held for sale comprise	
1,045 Buildings	250
1,000 Land	400
2,045 Total non-current assets held for sale	650

PBE IFRS 5.41

The Ministry-owned property on Owen Street in Wellington has been presented as held for sale during the year following the approval to sell the premises, as it will provide no future use to the Ministry. The sale is expected to be completed by November 2021.

PBE IFRS 5.38

The accumulated property revaluation reserve recognised in equity for the Owen Street property at 30 June 2021 is \$223,000.

⁴² If there has been a reversal of a previous write-down, disclose the circumstances or events that led to the reversal of the write-down (PBE IPSAS 12.47(g)). An entity that applies the RDR is not required to disclose this information.

11 Property, plant, and equipment

PBE IPSAS 1.132(c)	<p>Accounting policy</p> <p>Property, plant, and equipment consists of the following asset classes: land, buildings, leasehold improvements, furniture and office equipment, and motor vehicles.</p>									
PBE IPSAS 17.88(a)	<p>Land is measured at fair value, and buildings are measured at fair value less accumulated depreciation and impairment losses. All other assets classes are measured at cost, less accumulated depreciation, and impairment losses.</p>									
Treasury Instructions 2018 4.4.1	<p>Individual assets, or group of assets, are capitalised if their cost is greater than \$5,000.⁴³</p>									
	<p>Revaluations</p>									
PBE IPSAS 17.44	<p>Land and buildings are revalued with sufficient regularity to ensure that the carrying amount does not differ materially from their fair value and at least every three years.⁴⁴</p>									
PBE IPSAS 17.44,49	<p>The carrying values of revalued assets are assessed annually to ensure that they do not differ materially from fair value. If there is a material difference, then the off-cycle asset classes are revalued.</p>									
PBE IPSAS 17.56	<p>Land and building revaluation movements are accounted for on a class-of-asset basis.</p>									
PBE IPSAS 17.54,55	<p>The net revaluation results are credited or debited to other comprehensive revenue and expense and are accumulated to an asset revaluation reserve in equity for that class-of-asset. Where this would result in a debit balance in the asset revaluation reserve, this balance is not recognised in other comprehensive revenue and expense but is recognised in surplus or deficit. Any subsequent increase on revaluation that reverses a previous decrease in value recognised in surplus or deficit will be recognised first in surplus or deficit up to the amount previously expensed, and then recognised in other comprehensive revenue and expense.</p>									
PBE IPSAS 17.14	<p>Additions</p> <p>The cost of an item of property, plant, and equipment is recognised as an asset only when it is probable that future economic benefits or service potential associated with the item will flow to the Ministry and the cost of the item can be measured reliably.</p> <p>Work in progress is recognised at cost less impairment and is not depreciated.</p>									
PBE IPSAS 17.27	<p>In most instances, an item of property, plant and equipment is initially recognised at its cost. Where an asset is acquired through a non-exchange transaction, it is recognised at its fair value as at the date of acquisition.</p>									
PBE IPSAS 17.57,83,86	<p>Disposals</p> <p>Gains and losses on disposals are determined by comparing the disposal proceeds with the carrying amount of the asset. Gains and losses on disposals are included in surplus or deficit. When a revalued asset is sold, the amount included in the property revaluation reserve in respect of the disposed asset is transferred to taxpayers' funds.</p>									
PBE IPSAS 17.14	<p>Subsequent costs</p> <p>Costs incurred subsequent to initial acquisition are capitalised only when it is probable that future economic benefits or service potential associated with the item will flow to the Ministry and the cost of the item can be measured reliably.</p>									
PBE IPSAS 17.23,24	<p>The costs of day-to-day servicing of property, plant, and equipment are recognised in surplus or deficit as they are incurred.</p>									
PBE IPSAS 17.88(b),(c)	<p>Depreciation⁴⁵</p> <p>Depreciation is provided on a straight-line basis on all property, plant, and equipment, other than land, at rates that will write off the cost (or valuation) of the assets to their estimated residual values over their useful lives. The useful lives and associated depreciation rates of major classes of property, plant, and equipment have been estimated as follows:</p> <table border="0" style="margin-left: 40px;"> <tr> <td style="padding-right: 20px;">Buildings (including components)</td> <td style="padding-right: 20px;">25 to 60 years</td> <td>1.6% to 4%</td> </tr> <tr> <td>Furniture and office equipment</td> <td>5 years</td> <td>20%</td> </tr> <tr> <td>Motor vehicles</td> <td>5 years</td> <td>20%</td> </tr> </table> <p>Leasehold improvements are depreciated over the shorter of the unexpired period of the lease or the estimated remaining useful lives of the improvements.</p>	Buildings (including components)	25 to 60 years	1.6% to 4%	Furniture and office equipment	5 years	20%	Motor vehicles	5 years	20%
Buildings (including components)	25 to 60 years	1.6% to 4%								
Furniture and office equipment	5 years	20%								
Motor vehicles	5 years	20%								
PBE IPSAS 17.67	<p>The residual value and useful life of an asset is reviewed, and adjusted if applicable, at each balance date.</p>									

⁴³ Treasury Instructions set a threshold of \$5,000 as the upper limit for capitalisation. Government departments may establish lower or multiple limits, which must be consistently applied.

⁴⁴ The maximum revaluation cycle allowable under the Crown accounting policies is five years. It might be appropriate to adopt a shorter revaluation cycle policy.

⁴⁵ The useful lives and depreciation rates that have been listed above are only illustrations. Government departments will need to estimate these based on their specific circumstances.

11 Property, plant, and equipment (continued)

PBE IPSAS 1.132(c)	Impairment
PBE IPSAS 21.16-21	Property, plant, and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount might not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable service amount. The recoverable service amount is the higher of an asset's fair value less costs to sell and value in use.
PBE IPSAS 21.25,2	
PBE IPSAS 21.35	
PBE IPSAS 21.4450	Value in use is determined using an approach based on either a depreciated replacement cost approach, a restoration cost approach, or a service units approach. The most appropriate approach used to measure value in use depends on the nature of the impairment and availability of information.
PBE IPSAS 21.52,54	If an asset's carrying amount exceeds its recoverable service amount, the asset is regarded as impaired and the carrying amount is written down to its recoverable amount. For revalued assets, the impairment loss is recognised in other comprehensive revenue and expense and decreases the revaluation reserve for that class of asset. Where that results in a debit balance in the revaluation reserve, the balance is recognised in surplus or deficit. For assets not carried at a revalued amount, the total impairment loss is recognised in surplus or deficit. The reversal of an impairment loss on a revalued asset is recognised in other comprehensive revenue and expense and increases the asset revaluation reserve for that class of asset. However, to the extent that an impairment loss for that class of asset was previously recognised in surplus or deficit, a reversal of an impairment loss is also recognised in surplus or deficit.
PBE IPSAS 21.69	For assets not carried at a revalued amount, the reversal of an impairment loss is recognised in surplus or deficit.
	Critical accounting estimates and assumptions
	Estimating the fair value of land and buildings
PBE IPSAS 17.92(a),(b) ⁴⁶	The most recent valuation of land and buildings was performed by an independent registered valuer, AV Fairvalue ANZIV of Fairvalue Blogg Doe Valuers Limited. The valuation is effective as at 30 June 2021.
	Land
PBE IPSAS 1.92(c)	Land is valued at fair value using market-based evidence based on its highest and best use with reference to comparable land values. Adjustments have been made to the "unencumbered" land value where there is a designation against the land, or the use of the land is restricted because of reserve or endowment status. These adjustments are intended to reflect the negative effect on the value of the land where an owner is unable to use the land more intensely. Restrictions on the Ministry's ability to sell land would normally not impair the value of the land because the Ministry has operational use of the land for the foreseeable future and will substantially receive the full benefits of outright ownership
	Buildings
PBE IPSAS 17.92(c)	Non-specialised buildings (for example, residential and office buildings) are valued at fair value using market-based evidence. Significant assumptions in the 30 June 2021 valuation include market rents and capitalisation rates. • Market rents range from \$457 to \$585 per square metre.

⁴⁶ Although it is not a requirement, we consider it good practice to disclose the name and qualifications of property valuers.

11 Property, plant, and equipment (continued)

- Capitalisation rates are market-based rates of return and range from 7% to 7.75%.

Specialised buildings are valued at fair value using depreciated replacement cost because no reliable market data is available for such buildings.

Depreciated replacement cost is determined using a number of significant assumptions. Significant assumptions used in the 30 June valuation include:

- The replacement costs of the specific assets are adjusted where appropriate for optimisation due to overdesign or surplus capacity. There have been no optimisation adjustments for the most recent valuations.
- The replacement cost is derived from recent construction contracts of modern equivalent assets and Property Institute of New Zealand cost information. Construction costs range from \$967 to \$3,176 per square metre, depending on the nature of the specific asset valued.
- There are no significant asbestos issues associated with the buildings.
- Independent structural engineers have estimated present-value costs of between \$0.9 million and \$1.3 million to strengthen the Ministry's earthquake-prone buildings. The mid-point of \$1.1 million has been deducted off the depreciated replacement cost.
- The remaining useful life of assets is estimated after considering factors such as the condition of the asset, future maintenance and replacement plans, and experience with similar buildings.
- Straight-line depreciation has been applied in determining the depreciated replacement cost value of the asset.

PBE IPSAS 17.92(d)

A comparison of the carrying value of buildings using depreciated replacement cost and buildings valued using market-based evidence is as follows:

2020	2021
\$000	\$000
35,785 Depreciated replacement cost	27,878
14,115 Market-based evidence	11,948
49,900 Total carrying value of buildings	39,826

PBE IPSAS 17.88(d),(e)⁴⁷ Breakdown of property, plant, and equipment and further information

Movements for each class of property, plant, and equipment are as follows:

	Land \$000	Buildings \$000	Leasehold improvements \$000	Furniture/ office equipment \$000	Motor vehicles \$000	Total \$000
Cost or valuation						
Balance as at 1 July 2019	12,000	24,116	23,270	37,189	24,958	121,533

As at 30 June 2021	9,274	39,826	7,590	15,297	3,171	75,158

11 Property, plant, and equipment (continued)

Work in progress

PBE IPSAS 17.89(b) As at 30 June 2021 buildings in the course of construction total \$2.43 million (2020: \$30.0 million). No other asset classes have assets in the course of construction.⁴⁸

Restrictions

PBE IPSAS 17.89(a) The Ministry owns land on Thorndon Quay, Wellington, which is restricted for government or reserve use. The carrying amount of the land is \$865,000 (2020: \$835,000).⁴⁹

Finance leases

PBE IPSAS 13.40(a) As at 30 June 2021 the net carrying amount of office equipment held under finance leases is \$652,000 (2020: \$712,000). [Note 17](#) provides further information about finance leases.

12 Intangible assets

Accounting policy

Software acquisition and development

PBE IPSAS 31.34,35 Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software.

PBE IPSAS 31.64,65 Costs that are directly associated with the development of software for internal use are recognised as an intangible asset. Direct costs include the costs of services, software development employee costs, and an appropriate portion of relevant overheads.

PBE IPSAS 31.36,65,67 Staff training costs are recognised as an expense when incurred.

Costs associated with maintaining computer software are recognised as an expense when incurred.

Treasury Instructions 2018 4.4.2 Costs of software updates or upgrades are capitalised only when they increase the usefulness or value of the software.

PBE IPSAS 31 AG8 Costs associated with development and maintenance of the Ministry's website are recognised as an expense when incurred.

Amortisation

PBE IPSAS 31.96,117(b) The carrying value of an intangible asset with a finite life is amortised on a straight-line basis over its useful life. Amortisation begins when the asset is available for use and ceases at the date that the asset is derecognised. The amortisation charge for each financial year is recognised in surplus or deficit.

PBE IPSAS 31.117(a) The useful lives and associated amortisation rates of major classes of intangible assets have been estimated as follows:

Acquired computer software	3 years	33%
Internally developed computer software	5 years	20%

Impairment

PBE IPSAS 21.26A Intangible assets subsequently measured at cost that have an indefinite useful life, or are not yet available for use, are tested annually for impairment, irrespective of whether there is any indicator of impairment.

PBE IPSAS 31.117(c), (e) For further details, refer to the policy for impairment of property, plant, and equipment in [Note 11](#). The same approach applies to the impairment of intangible assets.

⁴⁸ The amount of expenditure recognised in the carrying amount of property, plant, and equipment in the course of construction is required to be disclosed for each class of asset (PBE IPSAS 17.89).

⁴⁹ The existence and amount of restrictions on title, and property, plant, and equipment pledged as security for liabilities are required to be disclosed for each class of asset (PBE IPSAS 17.89).

12 Intangible assets (continued)

Critical accounting estimates and assumptions

Useful lives of software

The useful life of software is determined at the time the software is acquired and brought into use and is reviewed at each reporting date for appropriateness. For computer software licences, the useful life represents management's view of the expected period over which the Ministry will receive benefits from the software, but not exceeding the licence term. For internally generated software developed by the Ministry, the useful life is based on historical experience with similar systems as well as anticipation of future events that might affect the useful life, such as changes in technology.

Breakdown of intangible assets and further information

PBE IPSAS 31.117(c),(e) Movements in the carrying value for each class of intangible asset are as follows:⁵⁰

	Acquired software \$000	Internally developed software \$000	Total \$000
Cost			
Balance as at 1 July 2019	4,869	14,609	19,478
Additions	1,534	4,601	6,135
Disposals	(265)	(796)	(1,061)
Balance as at 30 June 2020	6,138	18,414	24,552
Additions	18,280	56,995	75,275
Disposals	(1,957)	(3,396)	(5,353)
Balance as at 30 June 2021	22,461	72,013	94,474
Accumulated amortisation and impairment losses			
Balance as at 1 July 2019	4,258	12,775	17,033
Amortisation expense	421	1,261	1,682
Disposals	(265)	(796)	(1,061)
Impairment losses	0	0	0
Balance as at 30 June 2020	4,414	13,240	17,654
Amortisation expense	2,223	6,668	8,891
Disposals	(1,957)	(3,396)	(5,353)
Impairment losses	0	2,156	2,156
Balance as at 30 June 2021	4,680	18,668	23,348
Carrying amounts			
As at 1 July 2019	611	1,834	2,445
As at 30 June 2020	1,724	5,174	6,898
As at 30 June 2021	17,781	53,345	71,126

⁵⁰ PBE IPSAS 31.117 requires entities to distinguish between internally generated intangible assets and other intangible assets. For example, internally developed software shall be distinguished from acquired software, when material.

12 Intangible assets (continued)

Restrictions

PBE IPSAS 31.121(d) There are no restrictions over the title of the Ministry's intangible assets; nor are any pledged as security for liabilities.

Impairment

PBE IPSAS 21.77 The Ministry has recognised an impairment loss of \$2.16 million (2020: \$nil) for internally developed software. The impairment arose due to technical issues in developing a particular functionality for new software to be used in the Ministry's operations. As these issues could not be satisfactorily resolved, a component of the software development was abandoned, and the associated costs of this development are considered to be an impairment expense. The impairment expense was estimated based on invoices and discussions with the Ministry's consultants to determine the cost of the software development associated with the functionality that was abandoned. The impairment loss has been recognised in the statement of comprehensive revenue and expense in the line item "Other expenses".

PBE IPSAS 1.93

13 Payables and deferred revenue

PBE IPSAS 30.25

Accounting policy

PBE IFRS 9.4.2.1

Short-term payables are measured at the amount payable.

Breakdown of payables and further information

	2020 \$000	2021 \$000	
Payables and deferred revenue under exchange transactions			
16,413	Creditors	16,286	
68	Income in advance for cost recovered services	72	
6,740	Accrued expenses	4,342	
PBE IPSAS 1.88(k)	23,221	Total payables and deferred revenue under exchange transactions	20,700
Payables and deferred revenue under non-exchange transactions⁵¹			
37	Income in advance for subsidised services	50	
PBE IPSAS 1.88(j)	1,100	Taxes payable (GST and rates)	1,032
	24,358	Total payables and deferred revenue	21,782

PBE IPSAS 1.127(c)
Treasury Instructions
2018 4.4.3

14 Return of operating surplus

	2020 \$000	2021 \$000	
12,125	Net surplus	1,561	
0	Add "other expenses" – restructuring costs	1,788	
0	Deficits incurred from providing goods and services under section 21 of the PFA	0	
(104)	Add unrealised losses/(gains) on forward foreign exchange contracts or other derivatives recognised in surplus/(deficit)	(72)	
0	Add property revaluation losses/(gains) recognised in surplus/(deficit)	0	
2	Add (surpluses)/deficits of memorandum accounts	30	
	12,023	Total return of operating surplus	3,307

Good practice

The return of operating surplus to the Crown is required to be paid by 31 October of each year.

⁵¹ Payables and deferred revenue under non-exchange transactions would also include grants payable and liabilities for funding received subject to use or return conditions that have not yet been satisfied.

PBE IPSAS 1.93

15 Provisions

PBE IPSAS 1.132(c)

Accounting policy

PBE IPSAS 19.22,73

A provision is recognised for future expenditure of uncertain amount or timing when:

- there is a present obligation (either legal or constructive) as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the amount of the obligation.

Provisions are not recognised for net deficits from future operating activities.

PBE IPSAS 19.53,56,70

Provisions are measured at the present value of the expenditure expected to be required to settle the obligation using a pre-tax discount rate based on market yields on government bonds at balance date with terms to maturity that match, as closely as possible, the estimated timing of the future cash outflows. The increase in the provision due to the passage of time is recognised as an interest expense and is included in “finance costs” (refer to **Note 5**).

PBE IPSAS 19.82,83

Restructuring

A provision for restructuring is recognised when an approved detailed formal plan for the restructuring has been announced publicly to those affected, or implementation has already commenced.

PBE IPSAS 19.76,79

Onerous contracts

A provision for onerous contracts is recognised when the expected benefits or service potential to be derived from a contract are lower than the unavoidable cost of meeting the obligations under the contract.

The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract.

ACC Accredited Employers Programme

PBE IFRS 4.37(a)

The Ministry belongs to the ACC Accredited Employers Programme (the Programme) whereby the Ministry accepts the management and financial responsibility for employee work-related illnesses and accidents. Under the Programme, the Ministry is liable for all claim costs for a period of two years after the end of the cover period in which the injury occurred. At the end of the two-year period, the Ministry pays a premium to ACC for the value of residual claims, and the liability for ongoing claims from that point passes to ACC.

The liability for the Programme is measured using actuarial techniques at the present value of expected future payments to be made in respect of the employee injuries and claims up to balance date. Consideration is given to anticipated future wage and salary levels and experience of employee claims and injuries.

PBE IPSAS 19.97(d)	Unused amounts reversed	0	0	0	0	0
PBE IPSAS 19.97(e)	Discount unwind (refer to Note 5)	0	191	0	0	191
PBE IPSAS 19.97(a)	Balance as at 30 June 2021	1,023	890	847	464	3,224

PBE IPSAS 19.98 Restructuring provision

The restructuring provision arises from closure of the Ministry's Auckland office, which was announced in January 2021, and relates to the cost of expected redundancies. Management anticipate that the restructuring will be completed within 12 months of balance date and the amount of the liability is considered to be reasonably certain.

PBE IPSAS 19.98 Lease make-good provision

In respect of a number of its leased premises, the Ministry is required at the expiry of the lease term to make-good any damage caused to the premises and to remove any fixtures or fittings installed by the Ministry. In many cases, the Ministry has the option to renew these leases, which affects the timing of the expected cash outflows to make-good the premises.

PBE IPSAS 19.98(b) The Ministry has assumed that the option to renew its leases will be exercised in measuring the provision. The cash flows associated with the non-current portion of the lease make-good provision are expected to occur in September and December 2025.

PBE IPSAS 19.98 Onerous contracts provision

The provision for onerous contracts arises from a non-cancellable lease where the unavoidable costs of meeting the lease contract exceed the economic benefits to be received from it. The Ministry no longer uses three floors of a building due to restructuring. One of the three floors has been sublet, and the expected cash inflows from the sublease have been included in measuring the provision. Tenants have not yet been found for the other two floors. No sublease cash inflows on the two vacant floors have been included in measuring the provision as there is not sufficient certainty that these floors will be let. The Ministry has two years remaining on this lease.

52 The disclosure of comparative figures for provisions is not required by PBE IPSAS 19.97. We consider it good practice for Tier 1 entities to disclose the comparative figures for provisions.

53 The RDR does not require disclosures of the major assumptions concerning future events used in measuring provisions (PBE IPSAS 19 RDR 98.1).

15 Provisions (continued)

ACC Accredited Employers Programme⁵⁴

PBE IFRS 4 D17.7.1(a)	Exposures arising from the Programme are managed by promoting a safe and healthy working environment by: <ul style="list-style-type: none">· implementing and monitoring health and safety policies;· induction training on health and safety;· actively managing workplace injuries to ensure that employees return to work as soon as practical;· recording and monitoring workplace injuries and near misses to identify risk areas and implementing mitigating actions; and· identifying workplace hazards and implementation of appropriate safety procedures.
PBE IFRS 4 D17.7.1(c)	The Ministry has chosen a stop loss limit of 200% of the industry premium. The stop loss limit means the Ministry will carry the total cost of all claims up to \$500,000 for each year of cover, which runs from 1 April to 31 March. If the claims for a year exceed the stop loss limit, the Ministry will continue to meet the costs of claims and will be reimbursed by ACC for the costs that exceed the stop loss limit.
PBE IFRS 4 D17.7.1(b)(ii)	The Ministry is not exposed to any significant concentrations of insurance risk, as work-related injuries are generally the result of an isolated event involving an individual employee.
PBE IFRS 4 D17.8A ⁵⁵	An independent actuarial valuer, DW Smith BSc FIAA of Valuers Limited, has calculated the Ministry's liability, and the valuation is effective as at 30 June 2021. The valuer has attested that he is satisfied as to the nature, sufficiency, and accuracy of the data used to determine the outstanding claims liability. There are no qualifications contained in the valuer's report.
PBE IFRS 4 D17.8B(b),(c)	Average inflation has been assumed to be 2% for the year ending 30 June 2022 and 30 June 2023. A discount rate of 4.21% has been used for the year ending 30 June 2022 and 4.3% for the year ending 30 June 2023.
PBE IFRS 4 D17.6.1(d)	Any changes in liability valuation assumptions will not have a material effect on the financial statements.

PBE IPSAS 1.93

16 Employee entitlements

PBE IPSAS 1.132(c)

Accounting policy

Short-term employee entitlements

PBE IPSAS 39.8,9,11

Employee entitlements that are expected to be settled wholly before 12 months after the end of the reporting period in which the employees provide the related service are measured based on accrued entitlements at current rates of pay.

These include salaries and wages accrued up to balance date, annual leave earned to but not yet taken at balance date, and sick leave.

PBE IPSAS 39.19

A liability and an expense are recognised for bonuses where there is a contractual obligation or where there is a past practice that has created a constructive obligation and a reliable estimate of the obligation can be made.

Long-term employee entitlements

PBE IPSAS 39.155-160

Employee entitlements that are not expected to be settled wholly before 12 months after the end of the reporting period in which the employees provide the related service, such as long service leave and retirement gratuities, have been calculated on an actuarial basis. The calculations are based on:

- likely future entitlements accruing to employees, based on years of service, years to entitlement, the likelihood that employees will reach the point of entitlement, and contractual entitlements information; and
- the present value of the estimated future cash flows.

⁵⁴ Where the ACC Accredited Employers Programme liability is material to a government department, the disclosure requirements of PBE IFRS 4 *Insurance Contracts* Appendix D will need to be considered.

⁵⁵ Although it is not a requirement, we consider it good practice to disclose the name of the entity the actuary works for.

16 Employee entitlements (continued)

Good practice

Presentation of employee entitlements

PBE IPSAS 1.80

Sick leave, annual leave, vested long service leave, and non-vested long service leave and retirement gratuities expected to be settled within 12 months of balance date are classified as a current liability. All other employee entitlements are classified as a non-current liability.

PBE IPSAS 1.140

Critical accounting estimates and assumptions

Long service leave and retirement gratuities

The measurement of the long service leave and retirement gratuities obligations depend on a number of factors that are determined on an actuarial basis using a number of assumptions. Two key assumptions used in calculating this liability include the discount rate and the salary inflation factor. Any changes in these assumptions will affect the carrying amount of the liability.

Expected future payments are discounted using discount rates derived from the yield curve of New Zealand government bonds. The discount rates used have maturities that match, as closely as possible, the estimated future cash outflows. A weighted average discount rate of 3.13% (2020: 2.23%) and an inflation factor of 1.5% in year 1, 1.7% in year 2 and 1.8% in year 3 and continuing thereafter (2020: 1.2% in year 1, 1.4% in year 2 and 1.6% in year 3 and continuing thereafter) are used. The discount rates used are those advised by the Treasury. The salary inflation factor is the Ministry's best estimate forecast of salary increments.

If the discount rate were to differ by 1% from the Ministry's estimates, with all other factors held constant, the carrying amount of the liability and the surplus would be an estimated \$893,000 higher/lower.

If the salary inflation factor were to differ by 1% from the Ministry's estimates, with all other factors held constant, the carrying amount of the liability and the surplus would be an estimated \$675,000 higher/lower.

Breakdown of employee entitlements

	2020 \$000		2021 \$000
PBE IPSAS 1.80		Current portion	
	15,980	Annual leave	12,976
	323	Sick leave	291
	138	Long service leave and retirement gratuities	182
	16,441	Total current portion	13,449
PBE IPSAS 1.80		Non-current portion	
	6,910	Long service leave and retirement gratuities	7,299
	23,351	Total employee entitlements	20,748

PBE IPSAS 1.93

17 Finance leases

PBE IPSAS 1.132(c)

Accounting policy

PBE IPSAS 13.8

A finance lease transfers to the Ministry substantially all the risks and rewards incidental to ownership of an asset, whether or not title is eventually transferred.

PBE IPSAS 13.28

At the start of the lease term, finance leases are recognised as assets and liabilities in the statement of financial position at the lower of the fair value of the leased item and the present value of the minimum lease payments.

PBE IPSAS 13.34

The finance charge is charged to surplus or deficit over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability.

17 Finance leases (continued)

PBE IPSAS 13.36

The amount recognised as an asset is depreciated over its useful life. If there is no reasonable certainty as to whether the Ministry will obtain ownership at the end of the lease term, the asset is fully depreciated over the shorter of the lease term and its useful life.

Critical judgements in applying accounting policies

Leases classification

Determining whether a lease agreement is a finance lease or an operating lease requires judgement as to whether the agreement transfers substantially all the risks and rewards of ownership to the Ministry. Judgement is required on various aspects that include, but are not limited to, the fair value of the leased asset, the economic life of the leased asset, whether or not to include renewal options in the lease term, and determining an appropriate discount rate to calculate the present value of the minimum lease payments. Classification as a finance lease means the asset is recognised in the statement of financial position as property, plant, and equipment, whereas with an operating lease no such asset is recognised.

The Ministry has exercised its judgement on the appropriate classification of equipment leases, and has determined a number of lease arrangements to be finance leases.

Fair value

PBE IPSAS 30.29,31

As at 30 June 2021, the fair value of the finance lease liability is \$570,000 (2020: \$596,000). Fair value has been determined using contractual cash flows discounted using a rate based on market borrowing rates at balance date ranging from 5.6% to 6.3% (2020: 6.4% to 7.3%).

Analysis of finance leases

	2020 \$000	2021 \$000

	601 Total finance leases	575

17 Finance leases (continued)

Other information

PBE IPSAS 13.40(a)	The Ministry has entered into finance leases for various items of plant and equipment, such as for photocopiers and IT equipment. The net carrying amount of the leased items within each class of property, plant, and equipment is shown in Note 11 .
PBE IPSAS 13.40(f)(ii)	The finance leases can be renewed at the Ministry's option, with rents set by reference to current market rates for items of equivalent age and condition. The Ministry does not have the option to purchase the assets at the end of the lease terms.
PBE IPSAS 13.40(f)(iii)	There are no restrictions placed on the Ministry by any of the finance leasing arrangements.
PBE IPSAS 17.89(a)	Finance lease liabilities are effectively secured, as the rights to the leased asset revert to the lessor in the event of default in payment.

18 Equity

Good practice	Accounting policy Equity is the Crown's investment in the Ministry and is measured as the difference between total assets and total liabilities. Equity is disaggregated and classified as taxpayers' funds, memorandum accounts, and property revaluation reserves.
PBE IPSAS 1.95(c)	Memorandum accounts Memorandum accounts reflect the cumulative surplus or deficit on those departmental services provided that are intended to be fully cost recovered from third parties through fees, levies, or charges. The balance of each memorandum account is expected to trend toward zero over time.
PBE IPSAS 1.95(c)	Property revaluation reserves These reserves relate to the revaluation of land and buildings to fair value.

Breakdown of equity and further information

Breakdown of memorandum accounts and further information

Further information about memorandum accounts is presented below:⁵⁶

	2020 \$000	2021 \$000
Treasury Instructions 2018 6.3.7	Provision for statutory information	
	25 Balance as at 1 July	15
	230 Revenue	158
	(240) Expenses	(150)
	(10) <i>Surplus/(deficit) for the year</i>	8
	15 Balance as at 30 June	23
Treasury Instructions 2018 6.3.7	Performance of accountability reviews	
	12 Balance as at 1 July	20
	205 Revenue	214
	(197) Expenses	(252)
	8 <i>Surplus/(deficit) for the year</i>	(38)
	20 Balance as at 30 June	(18)
	Total memorandum accounts	
	37 Balance as at 1 July	35
	435 Revenue	372
	(437) Expenses	(402)
	(2) <i>Surplus/(deficit) for the year</i>	(30)
	35 Balance as at 30 June	5

These memorandum accounts summarise financial information relating to the accumulated surpluses and deficits incurred in the provision of statutory information and performance of accountability reviews by the Ministry to third parties on a full cost recovery basis.

The balance of each memorandum account is expected to trend toward zero over a reasonable period of time, with interim deficits being met either from cash from the Ministry's statement of financial position or by seeking approval for a capital injection from the Crown. Capital injections will be repaid to the Crown by way of cash payments throughout the memorandum account cycle.

⁵⁶ Memorandum accounts record the accumulated balance of surpluses and deficits incurred for outputs operating on a full cost recovery basis. These accounts are used to separately disclose the net cost of such outputs over the year, given that such information would otherwise just be aggregated as part of an entity's financial position. The structure and opening balance of each memorandum account is to be approved by the Minister of Finance, the Minister responsible for the appropriation, and the government department's responsible Minister (if different).

18 Equity (continued)

Good practice

Action taken to address surpluses and deficits⁵⁷

A revised fee strategy is currently being developed to ensure that fee structure and associated revenues are in line with the forecast activities.

PBE IPSAS 1.148A

Capital management

The Ministry's capital is its equity, which comprise taxpayers' funds, memorandum accounts, and property revaluation reserves. Equity is represented by net assets.

The Ministry manages its revenues, expenses, assets, liabilities, and general financial dealings prudently. The Ministry's equity is largely managed as a by-product of managing revenue, expenses, assets, liabilities, and compliance with the government budget processes, Treasury Instructions, and the PFA.

The objective of managing the Ministry's equity is to ensure that the Ministry effectively achieves its goals and objectives for which it has been established while remaining a going concern.

19 Related party transactions

PBE IPSAS 20.25

The Ministry is a wholly owned entity of the Crown.

Good practice

Related party disclosures have not been made for transactions with related parties that are within a normal supplier or client/recipient relationship on terms and condition no more or less favourable than those that it is reasonable to expect the Ministry would have adopted in dealing with the party at arm's length in the same circumstances. Further, transactions with other government agencies (for example, government departments and Crown entities) are not disclosed as related party transactions when they are consistent with the normal operating arrangements between government agencies and undertaken on the normal terms and conditions for such transactions.

PBE IPSAS 20.27,30,32

Related party transactions required to be disclosed

The Ministry entered into transactions with other Crown-related entities on non-commercial terms for the sale of inventories. Sales totalled \$301,271 (2020: \$46,123) and were sold at an average discount of 48% (2020: 52%) of market price. No amounts were outstanding at balance date.

The Ministry purchased internal audit services totalling \$26,564 (2020: \$nil) from Accountants Limited, an accounting firm of which the Chief Executive's spouse is a Partner. The services were procured without going through a tender process and the contracted hourly rates of the internal audit staff are at a significant discount compared to other recent internal audit service contracts the Ministry has entered into. There is a payable of \$14,412 outstanding as at 30 June 2021 (2020: \$nil).

PBE IPSAS 20.34(a)

Key management personnel compensation^{58,59}

	2020	2021
Leadership team, including the Chief Executive		
\$1,042,502	Remuneration	\$1,061,352
6.5	Full-time equivalent staff	6.5

⁵⁷ Where a memorandum account has a significant surplus or deficit balance, we encourage government departments to disclose the actions they are taking to address that balance.

⁵⁸ PBE IPSAS 20.4 defines key management personnel as all directors or members of the governing body of the entity; and other persons having the authority and responsibility for planning, directing, and controlling the activities of the reporting entity. Where they meet this requirement, key management personnel include: i) where there is a member of the governing body of a whole-of-government entity who has the authority and responsibility for planning, directing and controlling the activities of the reporting entity, that member; ii) key advisors of that member; and iii) the senior management group of the reporting entity. For a government department, we would expect the compensation of the Chief Executive, and members of the senior management team, or equivalent body, to be included in the key management personnel disclosures. There might also be other individuals who meet the key management personnel definition in PBE IPSAS 20 *Related Party Disclosures*. Departments will need to consider their specific facts and circumstances in determining the individuals that will be included in the key management personnel compensation disclosures.

⁵⁹ Entities are required to disclose the aggregate remuneration of key management personnel and the number of individuals, determined on a full-time equivalent basis, receiving remuneration within this category, showing separate major classes of key management personnel and including a description of each class (PBE IPSAS 20.34(a)).

19 Related party transactions (continued)

The above key management personnel disclosure excludes the Minister of Public Accountability. The Minister's remuneration and other benefits are not received only for his role as a member of key management personnel of the Ministry. The Minister's remuneration and other benefits are set by the Remuneration Authority under the Members of Parliament (Remuneration and Services) Act 2013 and are paid under Permanent Legislative Authority, not by the Ministry of Public Accountability.

20 Events after balance date

PBE IPSAS 14.28,30 After balance date, the Ministry entered into a non-cancellable contract to lease premises for a period of 10 years with the option to renew the lease for a further 10 years. The annual rental under the lease will be reviewed every 2 years. The annual rental under the agreement at inception is \$1.25 million per annum. The agreement is not included in the statement of commitments because it was entered into after balance date.

There have been no other significant events after balance date.

21 Financial instruments

PBE IPSAS 30.11 21A Financial instrument categories⁶⁰

The carrying amounts of financial assets and liabilities in each of the PBE IFRS 9 financial instrument categories are as follows:

	2020 \$000		2021 \$000
PBE IPSAS 30.11(f)		Financial assets measured at amortised cost	
	7,995	Cash and cash equivalents	13,358
	5,216	Receivables (excluding taxes receivable)	3,914
	13,211	Total financial assets measured at amortised cost	17,272
		Mandatorily measured at fair value through surplus or deficit⁶¹	
PBE IPSAS 30.11(a)(ii)	98	Derivative financial instrument assets	145
PBE IPSAS 30.11(e)(ii)	112	Derivative financial instrument liabilities	87
	210	Total mandatorily measured at fair value through surplus or deficit	232
PBE IPSAS 30.11(g)		Financial liabilities measured at amortised cost	
	23,153	Payables (excluding income in advance and taxes payable)	20,628
	601	Finance leases	575
	23,754	Total financial liabilities measured at amortised cost	21,203

21B Fair value hierarchy

For those instruments recognised at fair value in the statement of financial position, fair values are determined according to the following hierarchy:

- Quoted market price (level 1) – Financial instruments with quoted prices for identical instruments in active markets.
- Valuation technique using observable inputs (level 2) – Financial instruments with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.

⁶⁰ Deferred revenue items, such as income in advance, are not included within the payables figures in the financial instrument notes because deferred revenue is not a financial instrument. Taxes payable and receivables are also excluded from this table because they arise from statute rather than a contract.

⁶¹ A separate total must also be presented for financial assets and financial liabilities that have been designated at initial recognition at fair value through surplus or deficit. If an entity applies the RDR, it can present a single total for financial assets at fair value through surplus or deficit and a single total for financial liabilities at fair value through surplus or deficit (PBE IPSAS 30 RDR 11.1).

21B Fair value hierarchy (continued)

- Valuation techniques with significant non-observable inputs (level 3) – Financial instruments valued using models where one or more significant inputs are not observable.

PBE IPSAS 30.33(a) The Ministry's foreign exchange derivatives as at 30 June 2021 and 2020 were valued at fair value using observable inputs (level 2).

PBE IPSAS 30.33(b) There were no transfers between the different levels of the fair value hierarchy.⁶²

21C Financial instrument risks

PBE IPSAS 30.38 The Ministry's activities expose it to a variety of financial instrument risks, including market risk, credit risk, and liquidity risk. The Ministry has policies to manage the risks associated with financial instruments and seeks to minimise exposure from financial instruments. These policies do not allow any transactions that are speculative in nature to be entered into.

Market risk

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates.

Currency risk arises from future capital purchases and recognised liabilities, which are denominated in a foreign currency. The Ministry purchases capital equipment internationally and is exposed to currency risk arising from various currency exposures, primarily with respect to the US and Australian dollars.

The Ministry's Foreign Exchange Management Policy requires the Ministry to manage currency risk arising from future transactions and recognised liabilities by entering into foreign exchange forward contracts when the total transaction exposure to an individual currency exceeds NZ\$50,000. The Ministry's policy has been approved by the Treasury and is in accordance with the requirements of the Treasury's Guidelines for the Management of Crown and Departmental Foreign-Exchange Exposure.

PBE IPSAS 30.47

Sensitivity analysis

At 30 June 2021, if the NZ dollar had strengthened by 5% against the US dollar, with all other variables held constant, the surplus for the year would have been \$35,000 (2020: \$45,000) higher. At 30 June 2021, if the NZ dollar had weakened by 5% against the US dollar, with all other variables held constant, the surplus for the year would have been \$32,000 (2020: \$43,000) lower. These movements are attributable to translation of US dollar-denominated creditors.

At 30 June 2021, if the NZ dollar had strengthened by 10% against the Australian dollar, with all other variables held constant, the surplus for the year would have been \$72,000 (2020: \$34,000) higher. At 30 June 2021, if the NZ dollar had weakened by 10% against the Australian dollar, with all other variables held constant, the surplus for the year would have been \$67,000 (2020: \$32,000) lower. These movements are attributable to translation of Australian dollar-denominated creditors.

Fair value interest rate risk

Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate, or the cash flows from a financial instrument will fluctuate, due to changes in market interest rates.

The Ministry has no exposure to interest rate risk because it has no interest-bearing financial instruments.

Credit risk

Credit risk is the risk that a third party will default on its obligation to the Ministry, causing the Ministry to incur a loss.

In the normal course of its business, credit risk arises from receivables, deposits with banks, and derivative financial instrument assets.

⁶² Significant transfers between the different fair value hierarchy levels must be identified and the reasons for those transfers disclosed. Transfers into each level shall be disclosed and discussed separately from transfers out of each level (PBE IPSAS 30.33(b)). Additionally, for measures included in level 3 of the fair value hierarchy, a reconciliation between the opening and closing balances is required to be presented (PBE IPSAS 30.33(c)).

21C Financial instrument risks (continued)

These entities have high credit ratings. For its other financial instruments, the Ministry does not have significant concentrations of credit risk.

PBE IPSAS
30.42K,43(a),(b)

The Ministry's maximum credit exposure for each class of financial instrument is represented by the total carrying amount of cash and cash equivalents, receivables, and derivative financial instrument assets. There is no collateral held as security against these financial instruments.

PBE IPSAS 30.42G

Although cash and cash equivalents as at 30 June 2021 are subject to the expected credit loss requirements of PBE IFRS 9, no loss allowance has been recognised because the estimated loss allowance for credit losses is trivial.

PBE IPSAS 30.42M

The Ministry is permitted to deposit funds only with Westpac (Standard & Poor's credit rating of AA-), a registered bank, and enter into foreign exchange forward contracts with the New Zealand Debt Management Office (Standard & Poor's credit rating of AA).

Liquidity risk

PBE IPSAS 30.46(c)

Management of liquidity risk

Liquidity risk is the risk that the Ministry will encounter difficulty raising liquid funds to meet commitments as they fall due.

As part of meeting its liquidity requirements, the Ministry closely monitors its forecast cash requirements with expected cash drawdowns from the New Zealand Debt Management Office. The Ministry maintains a target level of available cash to meet liquidity requirements.

Contractual maturity analysis of financial liabilities, excluding derivatives

PBE IPSAS 30.46(a)

The table below analyses the Ministry's financial liabilities (excluding derivatives) into relevant maturity groupings based on the remaining period at balance date to the contractual maturity date. The amounts disclosed are the contractual undiscounted cash flows.⁶³

	Carrying amount \$000	Contractual cash flows \$000	Less than 6 months \$000	6 months- 1 year \$000	1-5 years \$000	More than 5 years \$000
2021						
Payables	20,628	20,628	20,628	0	0	0
Finance leases	575	676	60	60	481	75
Total	21,203	21,303	20,688	60	481	75
2020						
Payables	23,153	23,153	23,153	0	0	0
Finance leases	601	707	38	38	481	150
Total	23,754	23,860	23,191	38	481	150

63 PBE IPSAS 30 does not prescribe the time bands to use. Entities will need to exercise their judgement in determining the appropriate time bands to use when presenting the contractual maturity analysis.

21C Financial instrument risks (continued)

Contractual maturity analysis of derivative financial instrument liabilities

PBE IPSAS 30.46(b),
AG16(d)

The table below analyses the Ministry's forward exchange contract derivatives⁶⁴ into relevant maturity groupings based on the remaining period at balance date to the contractual maturity date. The amounts disclosed are the contractual undiscounted cash flows.

	Liability carrying amount \$000	Asset carrying amount \$000	Contractual cash flows \$000	Less than 6 months \$000	6-12 months \$000	1-2 years \$000
2021						
Gross settled forward foreign exchange contracts	87	145				
- outflow	-	-	1,800	900	900	0
- inflow	-	-	1,869	933	936	0
2020						
Gross settled forward foreign exchange contracts	112	98				
- outflow	-	-	925	525	400	0
- inflow	-	-	909	515	394	0

22 Explanation of major variances against budget

PBE IPSAS 1.148.1

Explanations for major variances from the Ministry's original 2020/21 budget figures are as follows:

Statement of comprehensive revenue and expense⁶⁵

Revenue Crown

Revenue Crown was greater than budgeted by \$10.0 million because of funding received for the Maximising Accountability initiative, which was not included in the original budget.

Personnel costs

Personnel costs were greater than budgeted by \$2.0 million because of higher staff numbers and increases in remuneration for those earning less than \$100,000. The increase in staff numbers was a result of implementing the Government's Maximising Accountability initiative. The cost of this initiative was not included in the original budget.

Other expenses

Other expenses were greater than budgeted by \$6.14 million because of the implementation of initiatives arising from the Government's Maximising Accountability initiative and because of the intangible asset impairment loss. Both of these were not included in the original budget. The increase in costs of \$4.0 million for the initiative arose primarily from consultancy expenditure. Further information about the impairment loss of \$2.1 million is contained in [Note 12](#).

Gain on property revaluations

Gain on property revaluations was above budget by \$2.53 million because an increase in property values was not forecasted.

⁶⁴ Entities shall include all gross settled derivative financial instruments regardless of whether their fair value is an asset or a liability.

⁶⁵ In addition to explaining variances in items presented in the core financial statements (for example, statement of comprehensive revenue and expense), government departments should also explain significant variances in output statement costs and revenue. These explanations can be provided either in the relevant output statement's costs and revenue or in this note to the financial statements.

22 Explanation of major variances against budget (continued)

Statement of financial position

Property, plant, and equipment

Property, plant, and equipment is above budget by \$3.04 million, primarily because an increase in property values from revaluation of \$2.53 million was not forecasted.

Payables and deferred revenue

Payables and deferred revenue are greater than budgeted by \$7.6 million, primarily because of unpaid invoices at year-end of \$6.22 million for IT-related acquisition projects. The progress payments for these projects were forecast to be paid prior to balance date. However, these payments were delayed due to a disagreement with suppliers.

Employee entitlements

The reduction in current employee entitlements compared to budget was a result of management's efforts to reduce the level of untaken leave.

Statement of cash flows

Receipts from Revenue Crown were greater than budgeted by \$10.0 million because of additional funding received for the Government's Maximising Accountability initiative. Consequently, the cash-out flows for payments to suppliers and employees were greater than budgeted.

23 Impact of Covid-19 on the Ministry⁶⁶

During August and September 2020 and February and March 2021, the Auckland region moved into Alert Levels 3 and 2 and other parts of the country moved into Alert level 2. Towards the end of June 2021, the Wellington region moved into Alert Level 2 for one week.

Impact on operations

The Ministry has an office in Auckland, so this meant that where possible its Auckland staff worked from home when the Auckland region was at Alert Level 3. The Ministry was still able to carry out its services so the impact on the operations was minimal.

Valuation of land and buildings

In the prior year, as a result of Covid-19 the Ministry's property valuer included a significant market uncertainty statement in their fair value assessment for land as at 30 June 2020. In respect of the 30 June 2021 valuations of land and buildings, the valuer has indicated that there is not a significant market uncertainty as a result of Covid-19.

Receivables impairment

The Covid-19 pandemic reduced the ability of some debtors to pay, which is likely to be a short-term impact. As a result, the expected credit loss rates have been increased (refer to [Note 7](#)).

⁶⁶ This is an illustrative example of the impact of the Covid-19 pandemic. Government departments will need to ensure that their disclosure appropriately captures their specific facts and circumstances.

NON-DEPARTMENTAL STATEMENTS AND SCHEDULES FOR THE YEAR ENDED 30 JUNE 2021^{67,68,69}

The following non-departmental statements and schedules record the revenue, capital receipts, expenses, assets, liabilities, commitments, contingent liabilities, contingent assets, and trust accounts that the Ministry manages on behalf of the Crown.

SCHEDULE OF NON-DEPARTMENTAL REVENUE FOR THE YEAR ENDED 30 JUNE 2021⁷⁰

	Actual		Actual	Unaudited budget ⁷¹
	2020		2021	2021
	\$000		\$000	\$000
PBE IPSAS 23.106(a)	3,682	Fines and penalties	4,208	4,010
	352	Interest unwind on concessionary loans	432	322
	248	Interest unwind on fines and penalties receivables	206	200
PBE IPSAS 1.99.1(a)	4,282	Total non-departmental revenue	4,846	4,532

Good practice

SCHEDULE OF NON-DEPARTMENTAL CAPITAL RECEIPTS FOR THE YEAR ENDED 30 JUNE 2021⁷²

	Actual		Actual	Unaudited budget
	2020		2021	2021
	\$000		\$000	\$000
	487	Repayments of public accountability research encouragement loans	37	400
	487	Total non-departmental capital receipts	37	400

PBE IPSAS 1.148.1 Explanations of major variances against budget are provided in [Note 5](#).

The accompanying notes form part of these financial statements.

For a full understanding of the Crown's financial position and the results of its operations for the year, refer to the consolidated Financial Statements of the Government for the year ended 30 June 2021.

67 Under section 35 of the PFA, Chief Executives of government departments are responsible for the financial reporting on:

- appropriations for non-departmental expenses and non-departmental capital expenditure administered by the government department; and
- assets, liabilities, and revenue managed by the government department on behalf of the Crown.

68 Government departments are also required by Treasury Instructions 2018 (paragraph 6.2.1.2) to provide supplementary information on any Crown activities they may manage. Treasury Instructions 2018 require departments to disclose non-departmental activities in the form of schedules. If applicable, government departments should present the following:

- Schedule of non-departmental revenue.
- Schedule of non-departmental expenses (if not fully disclosed in the statement of expenses and capital expenditure incurred against appropriations).
- Schedule of non-departmental assets.
- Schedule of non-departmental liabilities.
- Schedule of non-departmental commitments.
- Schedule of non-departmental contingent liabilities and contingent assets.
- Statement of relevant non-departmental accounting policies.

The information must be reported in accordance with NZ GAAP, the Financial Statements of the Government's accounting policies, and other guidelines (for example, Treasury Instructions and Treasury Circulars). The non-departmental statements and schedules are required to be audited.

69 There is no legislative requirement to provide forecast financial information for the next financial year for non-departmental activities. Government departments may choose to provide this additional forecast information. If forecast information is disclosed, then the disclosure requirements of PBE FRS 42 must be complied with.

70 The schedule of non-departmental revenue should exclude funding received from the New Zealand Debt Management Office, as this funding is a flow from one part of the Crown to another.

71 Presenting the budget figures from the Crown schedules and statements is considered to be good practice.

72 The schedule of non-departmental capital receipts is not required by Treasury Instructions. It is, however, commonly presented (and considered to be good practice) where a government department manages material capital receipts on behalf of the Crown (for example, loan repayments received).

SCHEDULE OF NON-DEPARTMENTAL EXPENSES FOR THE YEAR ENDED 30 JUNE 2021

	Actual		Actual	Unaudited
	2020		2021	budget
	\$000		\$000	2021
				\$000
	30,886	Grant expenses	31,238	32,387
	1,428	Promotions	1,495	1,610
	480	Subscriptions	367	405
PBE IPSAS 30.24(a)(i)	785	Net loss on concessionary loan fair value remeasurement	353	400
	140	Net impairment on fines and penalties receivable	114	100
PBE IPSAS 4.61(a)	75	Net foreign exchange losses, excluding derivatives	67	0
Treasury Instructions 2018 4.2.3	320	GST input expense	369	0
	874	Other expenses	1,202	890
	34,988	Total non-departmental expenses	35,207	35,792

SCHEDULE OF NON-DEPARTMENTAL ASSETS AS AT 30 JUNE 2021

	Actual		Actual	Unaudited
	2020		2021	budget
	\$000	Note	\$000	2021
				\$000
PBE IPSAS 1.70,76		Current assets		
PBE IPSAS 1.88(i)	2,567	Cash and cash equivalents	3,020	2,800
PBE IPSAS 1.88(g),(h)	1,017	Receivables	<u>2</u> 1,067	987
PBE IPSAS 1.89	200	Prepayments	650	200
PBE IPSAS 1.89	3,784	Total current assets	4,737	3,987
PBE IPSAS 1.70,76		Non-current assets		
PBE IPSAS 1.88(g),(h)	4,409	Receivables	<u>2</u> 5,072	4,800
PBE IPSAS 1.89	4,409	Total non-current assets	5,072	4,800
PBE IPSAS 1.89	8,193	Total non-departmental assets	9,809	8,787

Treasury Instructions 2018 6.2.1.2 In addition, the Ministry monitors two Crown entities. These are the Crown Services Entity and the Accountability Commission. The Crown's investment in those entities is consolidated in the Financial Statements of the Government on a line-by-line basis. The investment in those entities is not included in this schedule.

PBE IPSAS 1.148.1 Explanations of major variances against budget are provided in [Note 5](#).

The accompanying notes form part of these financial statements.

For a full understanding of the Crown's financial position and the results of its operations for the year, refer to the consolidated Financial Statements of the Government for the year ended 30 June 2021.

SCHEDULE OF NON-DEPARTMENTAL LIABILITIES AS AT 30 JUNE 2021⁷³

	Actual		Actual	Unaudited budget
	2020		2021	2021
	\$000	Note	\$000	\$000
	Current liabilities			
PBE IPSAS 1.70,80	832	Payables	3	524
PBE IPSAS 1.88(k),(j)				230
PBE IPSAS 1.89	832	Total non-departmental liabilities		524
				230

PBE IPSAS 1.148.1 Explanations of significant variances against budget are provided in [Note 5](#).

SCHEDULE OF NON-DEPARTMENTAL COMMITMENTS AS AT 30 JUNE 2021

The Ministry, on behalf of the Crown, has no non-cancellable capital or lease commitments (2020: \$nil).⁷⁴

SCHEDULE OF NON-DEPARTMENTAL CONTINGENT LIABILITIES AND CONTINGENT ASSETS AS AT 30 JUNE 2021

Unquantified contingent liabilities

The Ministry, on behalf of the Crown, has no unquantifiable contingent liabilities (2020: \$nil).

Quantifiable contingent liabilities

2020		2021
\$000		\$000
581	Legal proceedings and disputes	240
24	Other contingent liabilities	34
605	Total quantifiable contingent liabilities	274

Legal proceedings and disputes

PBE IPSAS 19.100 Legal proceedings and disputes relate to legal claims in relation to disputed public accountability research encouragement loans.

Contingent assets

PBE IPSAS 19.105 The Ministry, on behalf of the Crown, has no contingent assets (2020: \$nil).⁷⁵

The accompanying notes form part of these financial statements.

For a full understanding of the Crown's financial position and the results of its operations for the year, refer to the consolidated Financial Statements of the Government for the year ended 30 June 2021.

⁷³ Some government departments choose to include the balance of revaluation reserves arising on the revaluation of Crown assets in this schedule, which is then renamed a schedule of non-departmental liabilities and revaluation reserves. This is not a requirement of Treasury Instructions, but is an appropriate response when revaluation reserve information is considered to be material.

⁷⁴ Capital commitments that require disclosure include those relating to property, plant, and equipment, intangible assets, investment properties, and biological assets.

⁷⁵ Where there are no contingent assets, we consider it good practice to disclose this fact.

STATEMENT OF TRUST MONIES FOR THE YEAR ENDED 30 JUNE 2021

The Ministry operates a trust account as the agent under section 66 of the PFA. The transactions through this account and its balance are not included in the Ministry's own financial statements.

2020⁷⁶		2021
\$000		\$000
New Zealand Public Accountability Scholarship Trust		
69	Balance as at 1 July	112
525	Contributions ⁷⁷	500
(500)	Distributions ⁷⁸	(525)
18	Revenue ⁷⁹	21
0	Expenses ⁸⁰	0
112	Balance as at 30 June	108

This Trust was established in 1993 to provide scholarships for post-graduate research by academics and public servants into public sector governance and related subjects. The scholarships are for 12 months and may be renewed for a further 12 months.

Source of funds: Public donations and interest on investments.

Scholarships awarded for the year ended 30 June 2021:

- First-year scholarships: 6 (2020: 8)
- Renewed for second year: 3 (2020: nil)

The accompanying notes form part of these financial statements.

For a full understanding of the Crown's financial position and the results of its operations for the year, refer to the consolidated Financial Statements of the Government for the year ended 30 June 2021.

⁷⁶ We consider it good practice to disclose comparative figures in the statement of trust monies.

⁷⁷ Treasury Instructions 2018 paragraph 6.7.10 defines contributions as an amount that has been contributed to the trust by donors during the reporting period and which has been banked into the trust bank account.

⁷⁸ Treasury Instructions 2018 paragraph 6.7.10 defines distributions as sums paid to beneficiaries of the trust during the reporting period.

⁷⁹ Treasury Instructions 2018 paragraph 6.7.10 defines revenue as the amount of interest or other income received by the trust on trust investments, assets, and current balances.

⁸⁰ Treasury Instructions 2018 paragraph 6.7.10 defines expenses as the direct costs paid by the trust in achieving its aims. This might include cash paid for taxation, administrative and accounting fees, salaries and wages of trust employees, purchase of goods and services, and the purchase of items of property, plant, and equipment.

MINISTRY OF PUBLIC ACCOUNTABILITY

NOTES TO THE NON-DEPARTMENTAL STATEMENTS AND SCHEDULES⁸¹

1 Statement of accounting policies

REPORTING ENTITY

These non-departmental statements and schedules present financial information on public funds managed by the Ministry on behalf of the Crown.

These non-departmental balances are consolidated into the Financial Statements of the Government for the year ended 30 June 2021. For a full understanding of the Crown's financial position, results of operations, and cash flows for the year, refer to the Financial Statements of the Government for the year ended 30 June 2021.

BASIS OF PREPARATION

The non-departmental statements and schedules have been prepared in accordance with the accounting policies of the consolidated Financial Statements of the Government, Treasury Instructions, and Treasury Circulars.

Measurement and recognition rules applied in the preparation of these non-departmental statements and schedules are consistent with generally accepted accounting practice (Public Benefit Entity Accounting Standards) as appropriate for public benefit entities.

Presentation currency and rounding

PBE IPSAS 1.63(d),(e) The non-departmental statements and schedules are presented in New Zealand dollars (NZ dollars) and all values are rounded to the nearest thousand dollars (\$000).

PBE IPSAS 3.35,36

Standard issued and not yet effective and not early adopted

PBE IPSAS 41 *Financial Instruments* replaces PBE IFRS 9 *Financial Instruments* and is effective for year ending 30 June 2023, with earlier adoption permitted. The Ministry has assessed that there will be little change as a result of adopting the new standard as the requirements are similar to those contained in PBE IFRS 9. The Ministry does not intend to early adopt the standard for the non-departmental statements.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies are included in the notes to which they relate.

Significant accounting policies that do not relate to a specific note are outlined below.

Revenue

PBE IPSAS 23.107(a),(b) **Fines and penalties**

Revenue from fines and penalties is recognised when the infringement notice is issued. Revenue is measured at fair value. Fair value is determined using a model that uses past experience to forecast the expected collectability of fines and penalties and timing of receipts, and discounts these to present value using an appropriate discount rate.

PBE IPSAS 1.132(c)

Interest

The interest unwind reflects the increase in the present value of loans and other receivables as the period to expected repayment reduces. The interest unwind is calculated using the discount rate at the start of the financial year.

⁸¹ Government departments will need to exercise judgement in deciding how much detail to provide in the notes to the non-departmental statements and schedules. Where particular transactions or balances are material, we recommend that the disclosure requirements in the PBE Accounting Standards in relation to the transaction or balance should be disclosed. If the non-departmental expenses for a department are less than \$30 million, the RDR regime could be applied in preparing the disclosures for the non-departmental statements and schedules. However, caution should be used in applying the \$30 million expense criterion to non-departmental schedules, as the schedules are not a complete set of financial statements. A department should also consider whether a disclosure not required by the RDR should still be disclosed due to the significance of the transaction or balance or because the disclosure provides important information to readers. For example, if non-departmental expenses are below \$30 million but the non-departmental schedules include revenue, assets, or liabilities above \$30 million, it might still be appropriate to disclose Tier 1 information about revenue, assets, or liabilities that are above \$30 million even though the disclosure is not required by the RDR.

1 Statement of accounting policies (continued)

PBE IPSAS 1.132(c)	Grant expenditure
PBE IPSAS 19 IG18.1	Non-discretionary grants are those grants awarded if the grant application meets the specified criteria. They are recognised as an expense when an application that meets the specified criteria for the grant has been received. The Ministry's non-discretionary grants have no substantive conditions (i.e. use for restricted purposes or repay).
PBE IPSAS 19 IG18.2	Discretionary grants are those grants where the Ministry has no obligation to award on receipt of the grant application. For discretionary grants without substantive conditions, the total committed funding over the life of the funding agreement is recognised as an expense when the grant is approved by the Grants Approvals Committee and the approval has been communicated to the applicant. Grants with substantive conditions are recognised as an expense at the earlier of the grant payment date or when the grant conditions have been satisfied.
PBE IPSAS 1.132(c)	Foreign currency transactions
PBE IPSAS 4.24,32	Foreign currency transactions (including those for which forward exchange contracts are held) are translated into New Zealand dollars using the spot exchange rate at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the schedule of non-departmental revenue or expenses.
	Cash and cash equivalents
PBE IPSAS 2.8,57	Cash and cash equivalents include cash on hand, cash in transit and funds held in bank accounts administered by the Ministry. All cash held in bank accounts is held in on demand accounts and no interest is payable to the Ministry.
PBE IPSAS 1.132(c)	Commitments
Treasury Instructions 2018 3.5.21	Commitments are future expenses and liabilities to be incurred on contracts that have been entered into at balance date. Information on non-cancellable capital and operating lease commitments are reported in the schedule of non-departmental commitments.
Treasury Instructions 2018 3.5.21	Cancellable capital commitments that have penalty or exit costs explicit in the agreement on exercising that option to cancel are reported at the lower of the remaining contractual commitment and the value of those penalty or exit costs (i.e. the minimum future payments).
PBE IPSAS 1.132(c)	Goods and services tax
	Items in the non-departmental statements and schedules and are stated exclusive of GST, except for receivables and payables, which are stated on a GST-inclusive basis. GST is returned on revenue received on behalf of the Crown, where applicable. However, an input tax deduction is not claimed on non-departmental expenditure. Instead, the amount of GST applicable to non-departmental expenditure is recognised as a separate expense in the schedule of non-departmental expenses, and is eliminated against GST revenue on consolidation of the Financial Statements of the Government.
PBE IPSAS 1.140	Critical accounting estimates
	The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are in respect of the measurement of public accountability research encouragement loans – refer to Note 2 below.
	Budget figures
	The 2021 budget figures are for the year ending 30 June 2021 and are consistent with the best estimate financial information submitted to the Treasury for the BEFU for the year ending 30 June 2021.

PBE IPSAS 1.94(b)

2 Receivables

Accounting policy

PBE IPSAS 30.25

Public accountability research encouragement loans

PBE IFRS 9 B5.1.2F

Public accountability research encouragement loans issued at below-market interest rates are initially recognised at fair value. The difference between the face value and fair value of the loan is recognised as a grant expense in the schedule of non-departmental expenses.

PBE IFRS 9.4.1.4

The loans are subsequently measured at fair value through surplus and deficit as at 30 June because the loans do not pass the solely payments of principal interest test of PBE IFRS 9.

Fair value is determined using a model that uses past experience to forecast the expected loan repayments and discounts these to present value using a rate for loans of a similar term and credit risk.

PBE IPSAS 23.107(a)

Fines and penalties receivables⁸²

PBE IPSAS 23.42

Fines and penalties receivables are initially recognised at fair value. Fair value is determined as explained in the revenue accounting policy above.

PBE IPSAS 1.132

Fines and penalties do not arise from a contract and therefore are not subsequently accounted for as a financial instrument under PBE IFRS 9. Instead, their carrying amount as at 30 June is tested for impairment by forecasting expected future cash inflows and discounting those at an appropriate risk-based discount rate.

The gross carrying value of a receivable is written off only when the Chief Executive of the Ministry approves the write off of the debt under the Public Accountability Act 1998.

Critical accounting estimates and assumptions

Public accountability research encouragement loans

PBE IPSAS 30.31,37(d)

The Ministry engaged Wellington Actuaries Limited to estimate the fair value of the loans as at 30 June 2021.

PBE IPSAS 1.140

Key assumptions used by the actuary in the valuation are explained below:⁸³

- The actuary considered the contractual terms of the loans and past collection experience of the portfolio in estimating the recoverability of the loans. The historical loss rates are adjusted for current and forward-looking macroeconomic factors that might affect the recoverability of the loans.
- There is ongoing uncertainty about the economic effects that Covid-19 will have on the payment behaviour in the future. No explicit allowance has been made as part of the valuation due to Covid-19. The actuary has compared repayment behaviours before and after the Covid-19 lockdown. Nothing was identified at this stage that indicated that a change to the repayment assumption was required. However, there is still a level of uncertainty with this assumption.
- The discount rate to present value the future payments has been built-up by adding a risk margin to the risk-free discount rate. The risk-free discount rate is based on the 30 June 2021 table of risk-free discount rates published by the Treasury. The risk margin is estimated by the actuary based on an analysis of the interest rate spread between government securities and traded risky debt and making judgemental adjustments to ensure loss assumptions are not double counted in the forecast cash flow and discount rate. The average built-up discount rate ranges from 4% in year one to 5.5% in year ten.

PBE IPSAS 30.33(a)

The loans are classified in level 3 of the fair value hierarchy as fair value is estimated using significant unobservable inputs.

⁸² Fines and penalties receivables are non-contractual sovereign receivables because they arise out of statute rather than a contract. Non-contractual receivables are outside the scope of PBE IFRS 9 and are initially accounted for under PBE IPSAS 23 *Revenue from Non-Exchange Transactions*.

⁸³ The RDR does not require disclosure of fair value for certain financial assets and financial liabilities (PBE IPSAS 30.29) but does require disclosure of the basis for determining fair value for financial assets and financial liabilities measured at fair value (PBE IPSAS 30 RDR 31.1).

2 Receivables (continued)

Fines and penalties receivables

PBE IPSAS 1.140

The Ministry engaged Wellington Actuaries Limited to estimate the impaired value of the fines and penalties receivables as at 30 June 2021. Key assumptions used by the actuary in the valuation are explained below:

- Forecast cash flows are based on the payment rate experience of the portfolio. Payment rate experience is primarily based on the average payment ratios over the last five years.
- There is ongoing uncertainty about the economic effects that Covid-19 will have on the payment behaviour in the future. No explicit allowance has been made as part of the valuation due to Covid-19. The actuary has considered the nature of the fines and penalties receivables and compared repayment behaviours before and after the Covid-19 lockdown. Nothing was identified at this stage that indicated that a change to the payment assumption was required. However, there is still a level of uncertainty with this assumption.
- The discount rate to present value the future payments has been built by adding a risk margin to the risk-free rate. The risk-free rate is based on the 30 June 2021 table of risk-free rates published by the Treasury. The risk margin is estimated by the actuary based on an analysis of the interest rate spread between government securities and traded risky debt and making judgemental adjustments to ensure loss assumptions are not double counted in the forecast cash flow and discount rate. The average built-up discount rate ranges from 5% in year one to 6.5% in year ten.
- A collection expense ratio of 20% of the expected repayments has been factored into the valuation, which is based on the average collection expenses incurred by the Ministry in the past five years.

PBE IPSAS 1.94(b)

Breakdown of receivables and further information

PBE IPSAS 30.37(b)

	2020		2021
	\$000		\$000
		Public accountability research encouragement loans	
	7,610	Face value of loans	8,550
	(4,217)	Less: write-down at initial recognition, impairment, and other fair value changes	(4,568)
	3,393	Carrying value of public accountability research encouragement loans	3,982
		Fines and penalties receivables	
	2,951	Face value of fines and penalties imposed	3,101
	(1,074)	Less: net impairment	(1,101)
	1,877	Carrying value of fines and penalties	2,000
	124	Accrued revenue	142
	32	Other receivables	15
	5,426	Total receivables – non-exchange	6,139
		Total receivables are represented by:	
	1,017	Current	1,067
	4,409	Non-current	5,072

PBE IPSAS 1.88(g)

2 Receivables (continued)

Public accountability research encouragement loans⁸⁴

PBE IPSAS 30.37(c)

The public accountability research encouragement loan scheme is designed to encourage public accountability research. Loans are for a maximum of 10 years and no interest is charged on the loans.

PBE IPSAS 30.33(c),
37(a)

Movements in the carrying value of the loans during the year are as follows:

2020 \$000	2021 \$000
3,902 Balance as at 1 July	3,393
597 Face value of new loans granted during the year	779
(186) Fair value adjustment on initial recognition recognised as an expense	(232)
(487) Loans repaid during the year (principal and interest)	(37)
(785) Subsequent fair value adjustment recognised as an expense	(353)
352 Interest unwind	432
3,393 Balance as at 30 June	3,982

Sensitivity analysis

PBE IPSAS 30.33(e)

If the repayment of loans assumption improve by 10%, with all other factors held constant, the fair value of the loans would increase by \$371,000. If the repayment of loans assumption were to decrease by 10%, with all other factors held constant, the fair value of the loans would decrease by \$352,000.

PBE IPSAS 1.140

If the discount rate were to increase by 1%, with all other factors held constant, the fair value of the loans would decrease by \$472,000. If the discount rate were to decrease by 1%, with all other factors held constant, the fair value of the loans would increase by \$462,000.

Fines and penalties receivables

Good practice

Movements in the carrying value of the receivables during the year are as follows:

2020 \$000	2021 \$000
1,786 Balance as at 1 July	1,877
4,603 Face value of fines and penalties imposed during the year (a)	5,260
(921) Adjustment on initial recognition to recognise at fair value (b)	(1,052)
3,682 Fines and penalties revenue recognised during the year ((a)-(b))	4,208
(3,699) Fines and penalties collected during the year	(4,177)
(140) Subsequent net impairment adjustment	(114)
248 Unwind of discount	206
1,877 Balance as at 30 June	2,000

Good practice

Movements in the net impairment of the receivables are as follows:

2020 \$000	2021 \$000
1,101 Balance as at 1 July	1,081
140 Net additional impairment during the year	114
(167) Amounts written off	(94)
1,074 Balance as at 30 June	1,101

⁸⁴ PBE IPSAS 30 requires additional disclosures for concessionary loans granted, which are loans granted by an entity below market terms (for example, loans provided to community organisations at interest rates that are lower than what the community organisation could obtain if it borrowed from a financial institution).

2 Receivables (continued)

Sensitivity analysis

PBE IPSAS 1.140

If the payment ratio were to improve by 10%, with all other factors held constant, the carrying value of the receivables would increase by \$171,000. If the payment ratio were to decrease by 10%, with all other factors held constant, the carrying value of the receivables would decrease by \$162,000.

If the discount rate were to increase by 1%, with all other factors held constant, the carrying value of the receivables would decrease by \$271,000. If the discount rate were to decrease by 1%, with all other factors held constant, the carrying value of the receivables would increase by \$267,000.

PBE IPSAS 1.93

3 Payables

	2020 \$000	2021 \$000
	Payables under exchange transactions	
	124	189
	585	179
PBE IPSAS 1.88(k)	709	368
	Payables under non-exchange transactions	
PBE IPSAS 1.88(j)	123	156
	832	524

4 Financial instruments information and risks

PBE IPSAS 30.11

The carrying amounts of financial assets and financial liabilities in each of the financial instrument categories are as follows:

	2020 \$000	2021 \$000
PBE IPSAS 30.11(a)	Mandatorily measured at fair value through surplus or deficit	
	3,393	3,982
	Financial assets measured at amortised cost	
	2,567	3,020
	156	157
PBE IPSAS 30.11(f)	2,723	2,863
PBE IPSAS 30.11(g)	Financial liabilities measured at amortised cost	
	832	524

85 Fines and penalties receivables are not included in the financial instrument notes as the receivables are not financial instruments because they arise from statute.

4 Financial instruments information and risks (continued)

Credit risk

Credit risk is the risk that a third party will default on its obligation, causing a loss to be incurred.

PBE IPSAS 30.40

Credit risk arises from funds held with banks and receivables.

Funds must be deposited with Westpac, a registered bank.

PBE IPSAS 30.42K,43

The maximum credit exposure for each class of financial instrument is represented by the total carrying amount of cash and cash equivalents and receivables. There is no collateral held as security against these financial instruments. Other than Westpac, there are no significant concentrations of credit risk.

PBE IPSAS 30.42M

The Standard & Poor's credit ratings for cash and cash equivalents held at Westpac is AA-

PBE IPSAS 30.42G

Although cash and cash equivalents as at 30 June 2021 are subject to the expected credit loss requirements of PBE IFRS 9, no loss allowance has been recognised because the estimated loss allowance for credit losses is trivial.

PBE IPSAS 30.40

Cash flow interest rate risk

Cash flow interest rate risk is the risk that the cash flows from a financial instrument will fluctuate because of changes in market interest rates. The Ministry has no exposure to cash flow interest rate risk because there is no interest on the bank accounts held with the bank.

Liquidity risk

Liquidity risk is the risk that the Ministry will encounter difficulty raising liquid funds to meet commitments as they fall due.

PBE IPSAS 30.46(c)

As part of meeting its liquidity requirements, the Ministry closely monitors its forecast cash requirements. The Ministry maintains a target level of available cash to meet liquidity requirements.

PBE IPSAS 30.46(a)

As at 30 June 2021, the expected cash outflows from payables maturing within six months is \$524,000 (2020: \$832,000). These amounts are the contractual undiscounted cash flows.

Treasury Instructions
6.2.1.2

5 Explanation of major variances against budget⁸⁶

Explanations for major variances from the Ministry's non-departmental budget figures are as follows:

Schedule of revenue and schedule of expenses

There are no significant variances against budget.

Schedule of assets and schedule of liabilities

Prepayments were more than anticipated due to a greater number of subscriptions relating to the 2022 financial year being prepaid by 30 June 2021. Historically, these subscriptions had been paid in the financial year to which the subscription related.

Schedule of capital receipts

Repayments of public accountability research encouragement loans were lower than budget because Covid-19 affected some borrowers' ability to pay.

Good practice

6 Impact of Covid-19⁸⁷

The Covid-19 pandemic has not had a significant financial impact on the non-departmental statements and schedules.

⁸⁶ This note should explain variances between actual results and the budgeted figures.

⁸⁷ Government departments will need to ensure that their disclosure appropriately captures their specific facts and circumstances.

APPROPRIATION STATEMENTS⁸⁸Treasury
Instructions 2018
6.2.1.1

The following statements report information about the expenses and capital expenditure incurred against each appropriation administered by the Ministry for the year ended 30 June 2021. They are prepared on a GST-exclusive basis.

Treasury
Instructions
2018 5.1**Statement of cost accounting policies**

The Ministry has determined the cost of outputs using the cost allocation system outlined below.

Direct costs are those costs directly attributed to an output. Indirect costs are those costs that cannot be attributed to a specific output in an economically feasible manner.

Direct costs are charged directly to outputs. Indirect costs are charged to outputs based on cost drivers and related activity or usage information. Depreciation and capital charge are charged on the basis of asset utilisation. Personnel costs are charged on the basis of actual time incurred. Property and other premises costs, such as maintenance, are charged on the basis of floor area occupied for the production of each output. Other indirect costs are assigned to outputs based on the proportion of direct staff costs for each output.

There have been no changes in cost accounting policies since the date of the last audited financial statements.⁸⁹

PFA s45A(a)

STATEMENT OF BUDGETED AND ACTUAL EXPENSES AND CAPITAL EXPENDITURE INCURRED AGAINST APPROPRIATIONS FOR THE YEAR ENDED 30 JUNE 2021^{90,91}**Annual and permanent appropriations for Vote Public Issues⁹²**

Expenditure after remeasurements 2020 \$000 ⁹³		Expenditure before remeasurements 2021 \$000	Remeasurements 2021 \$000	Expenditure after remeasurements 2021 \$000	Approved appropriation 2021** \$000	Location of end-of-year performance information*
Departmental output expenses						
199,332	Provision of accountability services	216,950	(189)	216,761	217,216	1
210	Contestable accountability services – Revenue dependent appropriation	154	0	154	142	1
1,180	Administration of Crown expenses	3,023	0	3,023	3,028	1

0	Restructuring costs	1,788	0	1,788	1,800	1
Departmental capital expenditure						
74,592	Ministry of Public Accountability capital expenditure – Permanent Legislative Authority under section 24(1) of the PFA	78,482	0	78,482	79,321	1

88 The appropriation statements are required to be prepared separately from the financial statements (PFA 45(2)(d)).

89 Treasury Instructions 2018 require a statement of changes in cost accounting policies even if there have been no changes. Where a cost accounting policy change materially affects the cost of individual outputs, there must be disclosure of the nature of the changes, the reasons for the changes, and the effect of the changes on individual outputs.

90 This statement should include appropriations given by permanent legislative authority, such as departmental capital expenditure. Under section 11(2) of the PFA, PLAs must be managed and accounted for in the same manner as other appropriations and therefore must appear in the Estimates and this statement.

91 It is optional to include forecast financial information for the next financial year.

92 Appropriations given by permanent legislative authority should be separately disclosed, even when they are allocated to the same output class as a normal appropriation.

93 Disclosing comparative figures for the prior year is good practice.

PFA s45A(b)

*The numbers in this column represent where the end-of-year performance information⁹⁴ has been reported for each appropriation administered by the Ministry, as detailed below:

- 1 The Ministry's annual report.
- 2 The Accountability Commission's annual report.
- 3 To be reported by the Minister of Public Accountability in a report appended to this annual report.
- 4 No reporting due to an exemption granted under section 15D of the PFA.

** These are the appropriations from the Supplementary Estimates, adjusted for any transfers under section 26A of the PFA.

Good practice

Revenue dependent appropriation – Contestable accountability services⁹⁵

The Ministry earned \$158,000 of revenue from the sale of accountability publications and services. The Ministry is permitted to incur expenditure up to the amount of revenue earned for this appropriation.

Multi-year appropriation for Vote Public Issues

The Ministry has a multi-year appropriation for other expenses to be incurred by the Crown for the provision of advice and grants to assist the growth and development of public accountability in certain countries. This appropriation started on 1 July 2018 and expires on 30 June 2023.

2020		2021	Location of end-of-year performance information*

Ministerial servicing	342	366	

Expenses and capital expenditure approved under section 26B of the PFA

The Ministry commissioned a major study, *Positively Public Accountability – Its impact on the Public Service*, during the last two months of the financial year. The Ministry had to engage overseas consultants as a result of non-availability of local consultants. This resulted in actual costs exceeding those appropriated by \$68,000.⁹⁹

Treasury guidance

This unappropriated expenditure has been approved by the Minister of Finance under section 26B of the PFA.¹⁰⁰

Expenses and capital expenditure incurred in excess of appropriation¹⁰¹

Nil.

Expenses and capital expenditure incurred without appropriation or outside scope or period of appropriation

Nil.

⁹⁷ Where there have been transfers under section 26A of the PFA, we suggest this additional disclosure would be helpful to the users of the appropriation statements. This suggested additional disclosure is not mandatory.

⁹⁸ This statement should be included even if there was no unappropriated expenditure.

⁹⁹ If a government department has incurred expenses or capital expenditure without, or in excess of, authority, section 45A(c) of the PFA requires an explanation of the reasons for the unappropriated expenses and capital expenditure.

¹⁰⁰ Treasury guidance also states that this statement should include information on the validation mechanism for approving the unappropriated expenditure (for example, sections 26B or 26C of the PFA), and whether prior authority was provided, either under the interim authority of Imprest Supply or under another authority, such as that provided for emergency expenditure under section 25 of the PFA.

¹⁰¹ Government departments may use the suggested headings where there is unappropriated expenditure, or alternatively disclose all unappropriated expenditure under a single heading.

0	Ministry of Public Accountability – Capital injection	46,763	46,763

PFA s45A(e)

STATEMENT OF DEPARTMENTAL CAPITAL INJECTIONS WITHOUT, OR IN EXCESS OF, AUTHORITY FOR THE YEAR ENDED 30 JUNE 2021¹⁰³

The Ministry has not received any capital injections during the year without, or in excess of, authority.¹⁰⁴

¹⁰² Disclosing comparative figures for the prior year is good practice.

¹⁰³ This statement should be included even if a government department did not receive a capital injection without, or in excess of, authority.

¹⁰⁴ If a government department has received a capital injection outside authority, section 45A(e) of the PFA requires an explanation of the reasons for the unauthorised capital injection.

SUBJECT INDEX

Accounting policies (not specific to a note)	
Basis of preparation	20,56
Budget and forecast figures	22,57
Cash and cash equivalents	21,57
