

Climate Change: the coming storm and how to prepare

Part 2: Mitigating climate change risks within your organisation

Lloyd Kavanagh, Partner

Stephanie de Groot, Senior Associate

MinterEllisonRuddWatts

So how do you prepare?

“Scrutiny of risks and opportunities is key, as well as management and disclosure.”

World Economic Forum 2019: How to set up Effective Climate Governance on Corporate Boards

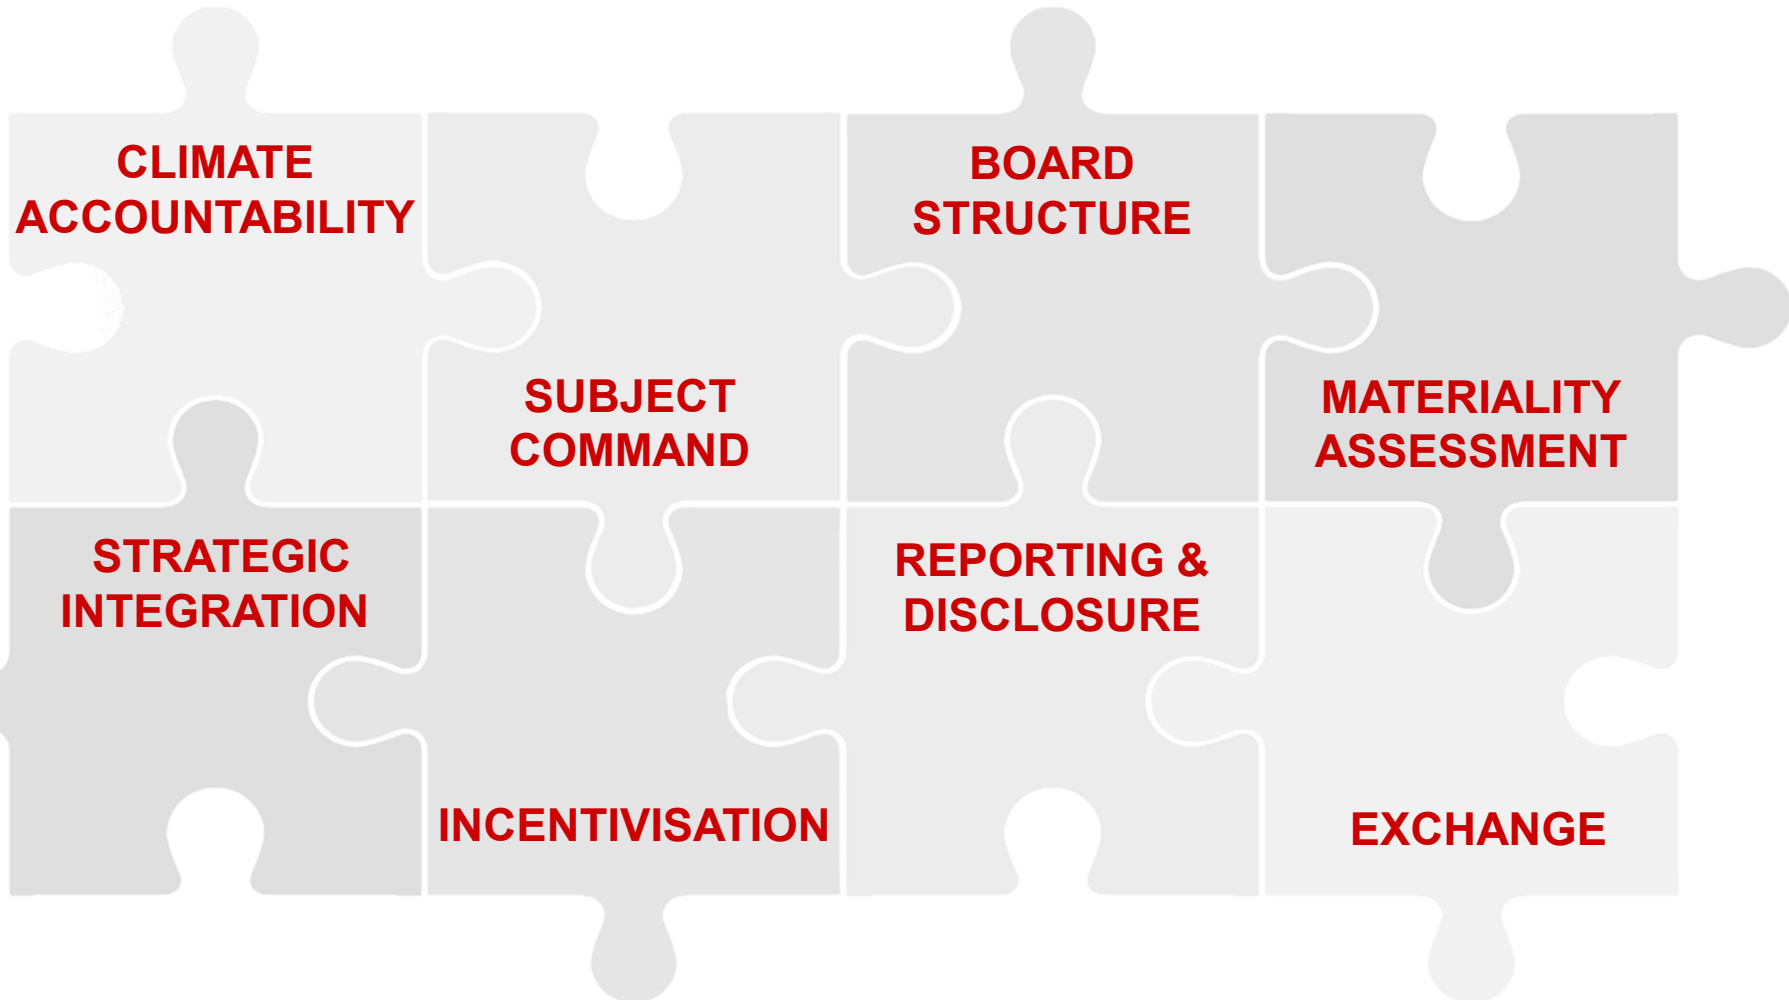

Guidance for local government

1. Know the science
2. Understand the projections for New Zealand
3. Identify the potential risks on your organisations' assets, functions and services
4. Assess the likely magnitude of such risks
5. Incorporate climate risk assessment into regulatory, assessment and planning processes and decision-making

So how do you prepare?
